

2249A is not completed by the customer at time of enrollment, the enrollment agent cannot issue credential(s). Having qualified agents provide credentialing and enrollment services is essential to maintaining daily operations and access rights to various installations throughout the NCR. The data are collected and stored in the PMP database at the time of enrollment.

Regarding the Pentagon tours Web site, respondents are visitors who wish to be conducted on a tour of the Pentagon. The Pentagon Visitor Tour Online Web site records customer information to facilitate verification of background investigations for individuals applying for access to Pentagon in connection with Pentagon Visitor Tours. If the online information is not presented by customers they will not be scheduled or allowed access into

the Pentagon. The data are collected and stored in the PMP Electronic Security System Database at the time of tour scheduling.

Dated: August 25, 2014.

Aaron Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

DEFENSE SECURITY COOPERATION AGENCY

201 12TH STREET SOUTH, STE 203
ARLINGTON, VA 22202-5408

The Honorable John A. Boehner
Speaker of the House
U.S. House of Representatives
Washington, DC 20515

AUG 12 2014

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 14-40, concerning the Department of the Air Force's proposed Letter(s) of Offer and Acceptance to Canada for defense articles and services estimated to cost \$225 million. After this letter is delivered to your office, we plan to issue a press statement to notify the public of this proposed sale.

Sincerely,

for J. W. Rixey
Vice Admiral, USN
Director

BILLING CODE 5001-06-C

Transmittal No. 14-40

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as Amended

(i) *Prospective Purchaser:* Canada(ii) *Total Estimated Value:*

Major Defense Equipment* ..	\$ 71 million
Other	\$154 million

TOTAL \$225 million

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:* 6 AN/AAQ-24(V) Large Aircraft Infrared Countermeasures (LAIRCM) Systems for the CP-140 Long Range Patrol Aircraft. The sale consists of 22 T-2465 AN/AAQ-24(V) Guardian Laser Transmitter Assemblies (GLTA), 52 R-2675 AN/

AAQ-24(V) Next Generation Missile Approach Warning Sensors (MAWS), and 16 CP-2793 AN/AAQ-24(V) LAIRCM System Processors, support and test equipment, spare and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other

related elements of logistical and program support.

(iv) *Military Department: Air Force (QCI).*

(v) *Prior Related Cases, if any:*

FMS case QCC-\$72M-14Oct10

FMS case QZZ-\$568M-31Jan07

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid:* None.

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:* See Attached Annex.

(viii) *Date Report Delivered to Congress:* 12 August 2014.

* as defined in Section 47(6) of the Arms Export Control Act.

Policy Justification

Canada-AN/AAQ-24(V) Large Aircraft Infrared Countermeasures (LAIRCM) Systems

The Government of Canada has requested the sale of 6 AN/AAQ-24(V) Large Aircraft Infrared Countermeasures (LAIRCM) Systems for the CP-140 Long Range Patrol Aircraft. The sale consists of 22 T-2465 AN/AAQ-24(V) Guardian Laser Transmitter Assemblies (GLTA), 52 R-2675 AN/AAQ-24(V) Next Generation Missile Approach Warning Sensors (MAWS), and 16 CP-2793 AN/AAQ-24(V) LAIRCM System Processors, support and test equipment, spare and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$225 million.

The proposed sale will contribute to the foreign policy and national security of the United States by improving the security of a NATO ally that has been, and continues to be, an important force for political stability and economic progress in North America.

Canada will use this capability to enhance the survivability of its CP-140 Long Range Patrol aircraft and crew. The LAIRCM system will provide Canada's CP-140 fleet with defensive countermeasures against enemy attacks. Canada, which already has AN/AAQ-24(V) systems as part of its C-17 fleet, will have no difficulty absorbing these additional systems.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be the Northrop Grumman Systems Corporation in Falls Church, Virginia. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Canada.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 14-40

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as Amended

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The AN/AAQ-24(V) Large Aircraft Infrared Countermeasures system is a stand-alone Directional Infrared Countermeasures (DIRCM) system that protects aircraft against ground launched infrared (IR) missiles. The AN/AAQ-24(V) is a small, passive/active, electro-optic, threat warning device used to detect surface-to-air IR missiles fired at helicopters and fixed-wing aircraft and automatically provides countermeasures as well as audio and visual warning messages to the aircrew. The basic system consists of multiple Missile Approach Warning Sensor (MAWS) units, Guardian Laser Turret Assembly (GLTA), Computer Processor (CP), Control Indicator (CI), and a User Data Module (UDM) card containing the laser jam codes. The UDM card is loaded into the CP prior to flight and is removed and put in secure storage when not in use. The set of MAWS units (AAR-54) is mounted on the aircraft exterior to provide omni-directional situational awareness. The MAWS detects the rocket plume of missiles and sends appropriate signals to the CP for processing. The CP analyzes the data and automatically deploys the appropriate countermeasures via the GLTA. The CP also contains comprehensive BIT circuitry. The CI displays the incoming threat so that the pilot can also take appropriate action. The maximum classification for all related hardware, software, technical data and documentation is Secret.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that the recipient country can provide the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security

objectives outlined in the Policy Justification.

4. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Canada.
