

DEPARTMENT OF TRANSPORTATION**Federal Railroad Administration****[Docket Number FRA–2014–0071]****Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System**

In accordance with Part 235 of Title 49 Code of Federal Regulations and 49 U.S.C. 20502(a), this document provides the public notice that by a document dated June 5, 2014, the National Railroad Passenger Corporation (Amtrak) petitioned the Federal Railroad Administration (FRA) seeking approval for the discontinuance or modification of a signal system. FRA assigned the petition Docket Number FRA–2014–0071.

Applicant: National Railroad Passenger Corporation, Mr. E. Keith Holt, Deputy Chief Engineer, Communications & Signals, Engineering Department, 4th Floor, 30th and Market Streets, Philadelphia, PA 19104.

Amtrak seeks approval of the proposed discontinuance and removal of automatic block signals and replacement of them with a cab signal-only system between County Interlocking, Milepost (MP) 32.8, in New Brunswick, NJ, and Ham Interlocking, MP 55.7, in Trenton, NJ, on Amtrak's Northeast Division West, formerly the New York Division. The tracks involved are Main Tracks 1 through 4. All four main tracks will be signaled in both directions using a cab signal without wayside signals system.

The reason given for the proposed changes is that this work is associated with the work being done under a high-speed rail grant from FRA for Amtrak to make improvements in the affected area and eventually raise passenger train speeds up to 160 mph.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments.
