Interested stakeholders are encouraged to present their concerns and suggestions as the Council proceeds with this effort. The Council is seeking the following input from stakeholders: (1) What should be the objectives of the Bering Sea FEP? What questions should the FEP answer? (2) What kind of actions should be considered in the FEP? Should the FEP provide specific or general guidance for fishery management? (for example, strategies to respond to climate change, preserve subsistence fishing and hunting resources, maintain healthy populations of top level predators, etc.) (3) Would the FEP provide added value over existing Council documents, and if so, how?
