

reporting form and increase the accuracy of species-specific dealer-reported information. Reducing the number of unknown and improperly identified sharks will improve quota monitoring and the data used in stock assessments. These workshops will train shark dealer permit holders or their proxies to properly identify Atlantic shark carcasses.

Protected Species Safe Handling, Release, and Identification Workshops

Since January 1, 2007, shark limited-access and swordfish limited-access permit holders who fish with longline or gillnet gear have been required to submit a copy of their Protected Species Safe Handling, Release, and Identification Workshop certificate in order to renew either permit (71 FR 58057; October 2, 2006). These certificate(s) are valid for 3 years. As such, vessel owners who have not already attended a workshop and received a NMFS certificate, or vessel owners whose certificate(s) will expire prior to the next permit renewal, must attend a workshop to fish with, or renew, their swordfish and shark limited-access permits. Additionally, new shark and swordfish limited-access permit applicants who intend to fish with longline or gillnet gear must attend a Protected Species Safe Handling, Release, and Identification Workshop and submit a copy of their workshop certificate before either of the permits will be issued. Approximately 184 free Protected Species Safe Handling, Release, and Identification Workshops have been conducted since 2006.

In addition to certifying vessel owners, at least one operator on board vessels issued a limited-access swordfish or shark permit that uses longline or gillnet gear is required to attend a Protected Species Safe Handling, Release, and Identification Workshop and receive a certificate. Vessels that have been issued a limited-access swordfish or shark permit and that use longline or gillnet gear may not fish unless both the vessel owner and operator have valid workshop certificates onboard at all times. Vessel operators who have not already attended a workshop and received a NMFS certificate, or vessel operators whose certificate(s) will expire prior to their next fishing trip, must attend a workshop to operate a vessel with swordfish and shark limited-access permits that uses longline or gillnet gear.

Registration

To register for a scheduled Protected Species Safe Handling, Release, and Identification Workshop, please contact Angler Conservation Education at (386) 682–0158.

Registration Materials

To ensure that workshop certificates are linked to the correct permits, participants will need to bring the following specific items with them to the workshop:

- Individual vessel owners must bring a copy of the appropriate swordfish and/or shark permit(s), a copy of the vessel registration or documentation, and proof of identification.
- Representatives of a business-owned or co-owned vessel must bring proof that the individual is an agent of the business (such as articles of incorporation), a copy of the applicable swordfish and/or shark permit(s), and proof of identification.
- Vessel operators must bring proof of identification.

Workshop Objectives

The Protected Species Safe Handling, Release, and Identification Workshops are designed to teach longline and gillnet fishermen the required techniques for the safe handling and release of entangled and/or hooked protected species, such as sea turtles, marine mammals, and smalltooth sawfish. In an effort to improve reporting, the proper identification of protected species will also be taught at these workshops. Additionally, individuals attending these workshops will gain a better understanding of the requirements for participating in these fisheries. The overall goal of these workshops is to provide participants with the skills needed to reduce the mortality of protected species, which

may prevent additional regulations on these fisheries in the future.

DEPARTMENT OF DEFENSE

Department of the Air Force

Revision to Military Freight Traffic Unified Rules Publication (MFTURP) NO. 1, Section F, Air Transportation Service Provider Rules and Domestic Air Tender Freight Carrier Registration Program (FCRP)

AGENCY: Department of the Air Force, Department of Defense.

SUMMARY: Air Mobility Command (AMC) is providing notice that it intends to change Domestic Air Tender policy within the MFTURP NO. 1 to restrict registration in the FCRP for Domestic Air Tenders to Civil Reserve Air Fleet (CRAF) Transportation Service Providers (TSP) only. CRAF TSPs may, if they choose to, act through a freight forwarder, logistics company, or broker. This change only affects domestic air tender TSPs such as airlines, logistics companies, freight forwarders, and brokers. The purpose of the new policy is to strengthen the CRAF program in support of the national defense airlift objectives to ensure military and civil airlift resources are capable of meeting the defense mobilization and deployment requirements supporting U.S. Defense & Foreign Policy.

DATES: Comments must be received by HQ AMC/A4TC NLT (30) days after the post date.

ADDRESSES: Submit comments to Air Mobility Command, Directorate of Logistics, Cargo & Traffic Management Branch (A4TC), Commercial Services Team, 402 Scott Drive, Unit 2A2, Scott AFB, IL 62225-5308. Electronic comments or requests for additional information may be sent by email to: org.amca4-67@us.af.mil.

FOR FURTHER INFORMATION CONTACT: AMC/A4TC, Commercial Services Team, (618) 229-4684, THOMAS J. TRUMBULL II, Colonel, USAF, Chief Air Transportation Division Directorate of Logistics.

SUPPLEMENTARY INFORMATION:

Reference: 10 USC 2304(c)(3), Industrial Mobilization, exception to full and open competition is essential to maintain adequate airlift services in case of a national emergency requiring activation of the Civil Reserve Air Fleet (CRAF). The use of the Industrial Mobilization exception to limit competition to CRAF carriers effectively supports the implementation of the National Airlift Policy by incentivizing carriers to keep vital commercial airlift resources available as a mobilization base in the event of a national or military emergency. The CRAF participation eligibility requirement, which will be included in the domestic air tender program, supports the development and maintenance of a robust CRAF program.

Background: CRAF is a voluntary program through which the nation's airlines provide stand-by commitments to support mobilization as a supplement to DOD organic airlift capacity. CRAF participants provide civilian airlift assets needed to support military operations and mobilization requirements enabling the DOD to meet peacetime requirements, surge needs, and mobilization requirements for major crises.
