Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through 12/31/2014. and sampling and testing requirements are among the tools EPA may use in enforcement of the provisions, and also provides that EPA must develop an enforceable scheme. **Form Numbers:** Reformulated Gasoline and Conventional Gasoline reporting is now required to be completed electronically. The reporting is to be made through The EPA Fuels Programs Reporting Forms: http://www.epa.gov/otaq/fuels/reporting/index.html.

**Respondents/affected entities:** Recordkeeping and, in some cases, reporting are required by the following gasoline marketing-related industries, SIC codes: Refiners (2911), importers (5172), terminals (5171), pipelines (4613), truckers and other distributors (4212), and retailers/wholesale purchaser-consumers (5541). NAICS codes: Refiners (324110), pipelines (486910) and terminals (424710). Not all NAICS codes for the responsible reporting parties were found. These are, however, parties which are obligated to report: Importers, truckers and other distributors and retailers/wholesale purchaser-consumers. Some refiners are importers but that is not always the case. Many of the required records are generated and maintained currently in the normal course of business. Without the required records EPA would be unable to enforce the Congressionally-mandated RFG and anti-dumping requirements.

**Respondent’s obligation to respond:** Mandatory per 40 CFR Part 80.

**Estimated number of respondents:** 4,068.

**Frequency of response:** Quarterly. Annually, on Occasion.

**Total estimated burden:** 127,041 hours (per year). Burden is defined at 5 CFR 1320.03(b).

**Total estimated cost:** $41,007,628 (per year), includes $12,177,318 annualized capital or operation & maintenance costs.

**Changes in Estimates:** Compared with the ICR currently approved by OMB, there is no change of burden hours.

There is an increase in the total burden cost due to the update in labor salaries.

**Dated:** August 21, 2014.

**Byron J. Bunker,**
Director, Compliance Division, Office of Transportation and Air Quality.
