Pursuant to 19 CFR 351.205(d), we will instruct CBP to require a cash deposit¹⁰ for all suspended entries at an *ad valorem* rate equal to the weighted-average amount by which normal value exceeds U.S. price, adjusted where appropriate for export subsidies and estimated domestic subsidy pass-through¹¹ where, as here, the product under investigation is also subject to a concurrent countervailing duty (“CVD”) investigation: (1) For those PRC exporter/producer combinations listed in the table above, the cash deposit rates will be the rates shown in that table; (2) for all combinations of PRC exporters/producers of merchandise under consideration that have not received their own separate rate above, the cash-deposit rate will be the cash deposit rate established for the PRC-wide entity; and (3) for all non-PRC exporters of merchandise under consideration which have not received their own separate rate above, the cash-deposit rate will be the cash deposit rate applicable to the PRC exporter/producer combination that supplied that non-PRC exporter. These suspension of liquidation and cash deposit instructions will remain in effect until further notice.

Furthermore, as stated above and consistent with our practice, we will instruct CBP to require a cash deposit equal to the amount by which the normal value exceeds the export price or constructed export price, less the amount of the CVD determined to constitute an export subsidy. In this LTFV investigation, we have not adjusted the preliminary cash deposit rates for export subsidies. With respect to the separate rate companies which were not individually investigated, we find that no export-subsidy adjustment to the rates is warranted because these companies are currently subject to the CVD rate calculated for “All Others” in the preliminary determination of the companion CVD investigation, and we did not include any export subsidies in

¹⁰ See *Modification of Regulations Regarding the Practice of Accepting Bonds During the Provisional Measures Period in Antidumping and Countervailing Duty Investigations*, 76 FR 61042 (October 3, 2011).

¹¹ See sections 772(c)(1)(C) and 777A(f) of the Act, respectively. Unlike in administrative reviews, the Department calculates the adjustment for export subsidies in investigations not in the margin calculation program, but in the cash deposit instructions issued to CBP. the calculation of that CVD rate.¹² Accordingly, we made no adjustment to the AD cash deposit rate for the separate rate companies. With respect to the PRC-wide entity, we find that no export-subsidy adjustment is warranted, as AFA, because the lowest export subsidy amount included in a CVD rate to which PRC-wide entries are currently subject is zero. Accordingly, we made no adjustment to the AD cash deposit rate for the PRC-wide entity.

We are not adjusting the preliminary determination rates for estimated domestic subsidy pass through because we have no basis upon which to make such an adjustment. See Preliminary Decision Memorandum at the section, “Section 777A(f) of the Act.”

International Trade Commission (“ITC”) Notification

In accordance with section 733(f) of the Act, we notified the ITC of our preliminary affirmative determination of sales at LTFV. If our final determination is affirmative, the ITC will determine before the later of 120 days after the date of this preliminary determination or 45 days after our final determination whether these imports are materially injuring, or threaten material injury to, the U.S. industry.

This determination is issued and published in accordance with sections 733(f) and 777(i)(1) of the Act and 19 CFR 351.205(c).

Dated: August 29, 2014.

Endangered and Threatened Species; Initiation of 5-Year Review

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of initiation of 5-year review; request for information.

SUMMARY: NMFS announces a 5-year review of the southern right whale (*Eubalaena australis*) and sperm whale (*Physeter macrocephalus*) under the Endangered Species Act of 1973, as amended (ESA). A 5-year review is a periodic process conducted to ensure that the listing classification of a species is accurate. A 5-year review is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission of any information on southern right whales and sperm whales that has become available since their last 5-year review in 2007 and 2009, respectively.

DATES: To allow us adequate time to conduct this review, we must receive your information no later than November 7, 2014. However, we will continue to accept new information about any listed species at any time.

ADDRESSES: You may submit comments on this document, identified by NOAA–NMFS–2014–0113, by any of the following methods:

- Electronic Submissions: Submit all electronic public comments via the Federal e-Rulemaking Portal www.regulations.gov. To submit comments via the e-Rulemaking Portal, first click the “submit a comment” icon, then enter NOAA–NMFS–2014–0113 in the keyword search. Locate the document you wish to comment on from the resulting list and click on the “Submit a Comment” icon on the right of that line.

- Mail or hand-delivery: Angela Somma, National Marine Fisheries Service, Office of Protected Resources, Endangered Species Division, 1325 East West Highway, Silver Spring, MD 20910.

Instructions: Comments must be submitted by one of the above methods to ensure that the comments are

received, documented, and considered by NMFS. Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.) submitted voluntarily by the sender will be publicly accessible. FOR FURTHER INFORMATION CONTACT: Therese Conant, Office of Protected Resources, 301-427-8456.

SUPPLEMENTARY INFORMATION: Section 4(c)(2)(A) of the ESA requires that we conduct a review of listed species at least once every five years. The regulations in 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species currently under active review. This notice announces our active review of the southern right whale and sperm whale.

Public Solicitation of New Information

To ensure that the 5-year review is complete and based on the best available scientific and commercial information, we are soliciting new information from the public, governmental agencies, Tribes, the scientific community, industry, environmental entities, and any other interested parties concerning the status of the southern right whale and sperm whale. The 5-year review considers the best scientific and commercial data and all new information that has become available since the listing determination or most recent status review. Categories of requested information include: (1) Species biology including, but not limited to, population trends, distribution, abundance, demographics, and genetics; (2) habitat conditions including, but not limited to, amount, distribution, and suitability; (3) conservation measures that have been implemented that benefit the species; (4) status and trends of threats; and (5) other new information, data, or corrections including, but not limited to, taxonomic or nomenclatural changes, identification of erroneous information

contained in the List, and improved analytical methods.

Any new information will be considered during the 5-year review and will also be useful in evaluating the ongoing recovery program for the southern right whale and sperm whale. For example, information on conservation measures will assist in tracking implementation of recovery actions.
