

Next Steps

After the public reviews and provides comments on the draft CCP and EA, the planning team will present this document along with a summary of all substantive public comments to the Regional Director. The Regional Director will consider the environmental effects of each alternative, along with information gathered during public review, and will select a preferred alternative for the draft CCP and EA. If the Regional Director finds that no significant impacts would occur, the Regional Director's decision will be disclosed in a Finding of No Significant Impact. If the Regional Director finds a significant impact would occur, an environmental impact statement will be prepared. If approved, the action in the preferred alternative will compose the final CCP.

Public Availability of Comments

All public comment information provided voluntarily by mail, by phone, or at public meetings (e.g., names, addresses, letters of comment, input recorded during meetings) becomes part of the official public record. If requested under the Freedom of Information Act by a private citizen or organization, the Service may provide copies of such information.
