SUPPLEMENTARY INFORMATION:

Background

NMFS published notice of the September 22, 2014 meeting in the **Federal Register** on August 8, 2014 (79 FR 46392) and solicited statements of interest in making a presentation and abstracts. Subsequently NMFS received inquiries from members of the public about whether NMFS would provide alternative ways to participate. NMFS is therefore amending the original notice to accommodate participation by individuals who cannot attend the first meeting in person and to provide notice that we will hold a second meeting to elicit scientific input relevant to Steller sea lion critical habitat. NMFS will make the first meeting available via a webinar and will accept written submissions of relevant scientific information.

The purpose of these two meetings is to elicit scientific information related to the designation of Steller sea lion critical habitat under the ESA. NMFS will provide future opportunity to comment on the essential features and geographic limits of critical habitat when NMFS issues a proposed rule.

The first meeting will be held on September 22, 2014 at the NMFS Alaska Fisheries Science Center, 7600 Sand Point Way NE., Building 4, Seattle, WA 98115, in the Jim Traynor Conference Room. NMFS will make this meeting available by webinar. Pertinent information about this webinar is as follows:
