D. Paperwork Reduction Analysis

59. This document contains proposed new information collection requirements. SUPPLEMENTARY INFORMATION:

I. Background

Effective July 1, 2014, the CPARS, ACASS, and CCASS modules were merged into a single application under the CPARS name in order to standardize the contractor performance evaluation process across the entire Federal Government. DoD, GSA, and NASA are proposing to revise the language at FAR 42.1502, Policy, to remove references to the ACASS and CCASS modules. This action will standardize the past performance reporting requirements under the CPARS database in FAR subpart 42.15.

II. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

III. Regulatory Flexibility Act

DoD, GSA, and NASA do not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because this rule removes references to the ACASS and CCASS modules since these modules were merged into CPARS on July 1, 2014. This action will standardize the past performance reporting requirements for architect-engineer contracts and construction contracts under the CPARS database. This change does not place any new requirements on small entities. Therefore, an initial regulatory flexibility analysis has not been performed. DoD, GSA, and NASA invite comments from small business concerns and other interested parties on the

expected impact of this rule on small entities.

DoD, GSA, and NASA will also consider comments from small entities concerning the existing regulations in subparts affected by the rule consistent with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610, FAR Case 2014-010, in correspondence.

IV. Paperwork Reduction Act

The rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

List of Subjects in 48 CFR Part 42

Dated: September 9, 2014.

William Clark,

Acting Director, Office of Government-wide Acquisition Policy, Office of Acquisition Policy, Office of Government-wide Policy.

Therefore, DoD, GSA, and NASA propose amending 48 CFR part 42 as set forth below:

PART 42—CONTRACT ADMINISTRATION AND AUDIT SERVICES

■ 1. The authority citation for 48 CFR part 42 continues to read as follows:

■ 2. Amend section 42.1502 by revising paragraph (a) to read as follows:

42.1502 Policy.

(a) *General.* Past performance evaluations shall be prepared at least annually and at the time the work under a contract or order is completed. Past performance evaluations are required for all contracts and orders that exceed the specified thresholds, including contracts and orders performed outside the United States. These evaluations are generally for the entity, division, or unit that performed the contract or order. Past performance information shall be entered into CPARS, the Governmentwide evaluation reporting tool for all past performance reports on contracts and orders. Instructions for submitting evaluations into CPARS are available at <http://www.cpars.gov/>.

RIN 0648-BE25

Fisheries Off West Coast States; Highly Migratory Fisheries; California Swordfish Drift Gillnet Fishery; Vessel Monitoring System and Pre-Trip Notification Requirement

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS is issuing a proposed rule to require use of a NMFS-approved vessel monitoring system (VMS) and institute a 48-hour pre-trip call-in notification requirement for West Coast Large-mesh Swordfish Drift Gillnet (DGN) vessel owners. The DGN fishery operates under authority of the Federal Fishery Management Plan for U.S. West Coast Fisheries for Highly Migratory Species (HMS FMP). The VMS requirement is a mandatory term and condition in the 2013 Endangered Species Act (ESA) Section 7 biological opinion (Opinion) that authorizes the DGN fishery to take certain threatened and endangered species incidental to fishing operations. Installing and operating VMS on vessels in this fishery would provide NMFS and law enforcement personnel the ability to monitor the fishery for compliance with time/area closures, facilitate the deployment of agents to inspect vessels for compliance with conservation measures, and more closely examine and compare the distribution of observed and unobserved fishing effort in the fishery. The pre-trip notification would assist NMFS with timely and efficient placement of NMFS observers onboard DGN vessels.

DATES: Comments must be received on or before September 30, 2014.

ADDRESSES: You may submit comments on the proposed rule, identified by NOAA-NMFS-2014-2013-0131, by any of the following methods:

- *Electronic Submission:* Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to <http://www.regulations.gov/#!docketDetail;D=NOAA-NMFS-2014-2013-0131>, click the "Comment Now!" icon, complete the required fields, and enter or attach your comments.

- *Mail:* Submit written comments to Craig Heberer, NMFS West Coast Region, 501 W. Ocean Blvd., Ste. 4200, Long Beach, CA 90802. Include the identifier "NOAA-NMFS-2014-" in the comments.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous). Attachments to electronic comments will be accepted in Microsoft Word, Excel, or Adobe PDF file formats only.

SUPPLEMENTARY INFORMATION: The DGN fishery is managed under the HMS FMP, which was prepared by the Pacific Fishery Management Council (Council) and is implemented under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (MSA), 16 U.S.C. 1801, et seq., by regulations at 50 CFR part 660.

Background

On September 4, 2013, NMFS published in the **Federal Register** a temporary rule (78 FR 54548) for emergency action to modify the DGN fishery for the 2013-2014 fishing season under authority of section 305(c)(1) of the MSA, 16 U.S.C. 1855(c). NMFS issued the temporary rule as a result of the observed entanglement of two Endangered Species Act (ESA) listed sperm whales by a DGN fishing vessel in 2010 and the recommendations made to NMFS by the Pacific Offshore Cetacean Take Reduction Team (TRT) to reduce sperm whale bycatch in the fishery for the 2013-2014 fishing
