

the proposed rule change to be operative upon filing.¹⁷

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)¹⁸ of the Act to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-NYSEArca-2014-96 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549-1090. All submissions should refer to File Number SR-NYSEArca-2014-96. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public

Reference Section, 100 F Street NE., Washington, DC 20549-1090. Copies of the filing will also be available for Web site viewing and printing at the NYSE's principal office and on its Internet Web site at www.nyse.com. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-NYSEArca-2014-96 and should be submitted on or before October 6, 2014.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁹

Kevin M. O'Neill,

Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-73026; File No. SR-NYSEArca-2014-97]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Amending Rule 6.60(b) To Enhance the Functionality of the Limit Order Filter

September 9, 2014.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (the "Act")² and Rule 19b-4 thereunder,³ notice is hereby given that, on August 28, 2014, NYSE Arca, Inc. (the "Exchange" or "NYSE Arca") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of the Substance of the Proposed Rule Change

The Exchange proposes to amend Rule 6.60(b) to enhance the functionality of the Limit Order Filter. The text of the proposed rule change is available on the Exchange's Web site at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange is proposing to amend Rule 6.60(b) to enhance the functionality of the Limit Order Filter in use on the Exchange. The Exchange's enhancement is designed to help maintain a fair and orderly market by providing limit orders received before the opening of trading the same protection those orders are afforded during Core Trading Hours.

As set forth in proposed Rule 6.60(b), the Exchange currently employs a filter for incoming limit orders, pursuant to which the Exchange rejects limit orders priced a specified percentage away from the NBB or NBO. As the Exchange receives limit orders, the Exchange System will check the price of the limit order against the contra-side NBB or NBO at the time of order entry to determine whether the limit order is within the specified percentage.⁴ If the limit order is priced outside of the specified percentage, the limit order will be rejected. As this filter relies on an NBBO at the time of Exchange receipt of the order, it is only available after the Exchange has opened a series.

The Exchange proposes to amend Rule 6.60(b) to expand the functionality of the Limit Order Filter to protect limit orders received prior to the opening of trading. As proposed, for limit orders received before the opening of trading, the Limit Order Filter would operate immediately before conducting a Trading Auction (as set forth in Rule 6.64). The enhancement is designed to provide the same level of protection to market participants who enter limit

¹⁷ For purposes only of waiving the 30-day operative delay, the Commission has also considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

¹⁸ 15 U.S.C. 78s(b)(2)(B).

¹⁹ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 15 U.S.C. 78a.

³ 17 CFR 240.19b-4.

⁴ Pursuant to Rule 6.60(b), unless determined otherwise by the Exchange and announced to OTP Holders via Trader Update, the specified percentage will be 100% for the contra-side NBB or NBO priced at or below \$1.00 and 50% for contra-side NBB or NBO priced above \$1.00.

orders before the open as it does for those who enter limit orders during Core Trading. The Exchange believes that using the best bids and offers available immediately before conducting the Trading Auction helps assure an accurate state of the market.

Pursuant to Rule 6.64(a), a Trading Auction is the process by which trading is initiated in a specified options class. Pursuant to 6.64(b)(D), prior to conducting the Auction Process, the Exchange system must have market maker quotes or an NBBO that creates a bid-ask differential that does not exceed those specified under Rules 6.37(b)(1)(A)–(E). Immediately, prior to conducting the Auction Process, the Exchange will use the contra-side bid or offer of this bid-ask differential as the parameters for the Limit Order Filter being applied to limit orders received before the open of trading. The Exchange will announce the implementation date of this change through a Trader Update.

For example, assume the Exchange receives a sell order with a limit of \$2.00 at 9:00:00 a.m. Eastern (which is before the open). If the Exchange is about to open that series at 9:30:02 a.m. where the best available bid is \$4.00, because the \$2.00 sell order is 50% below the bid, that limit order would be rejected immediately before the series opens. Likewise, if the Exchange is about to open a series in which the best available offer at \$0.75, a buy order received pre-open with a limit price at or above \$1.50 (which is 100% above the offer) would be rejected. In both these [sic] scenarios, orders that otherwise may cause price dislocation would be rejected before they could cause such harm to the market.

2. Statutory Basis

The proposed rule change is consistent with Section 6(b)⁵ of the Act, in general, and furthers the objectives of Section 6(b)(5),⁶ in particular, in that it is designed to promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest. The Exchange believes that this proposal meets these requirements because it would assist with the maintenance of a fair and orderly market by helping to mitigate the potential risks associated with the entry of limit orders before the opening that ultimately are priced a specified percentage away from the prevailing

contra-side market existing at the open. The Exchange believes that a limit order priced a specified percentage away from the prevailing contra-side market existing at the open is evidence of a market participant error. By rejecting such an order, the Exchange believes it is promoting just and equitable principles of trade by preventing potential price dislocation that could result through subsequent executions during Core Trading of the balance of the aggressively priced limit order. The proposed rule change would therefore remove impediments to and perfect the mechanism of a free and open market and national market system by ensuring that an existing price protection, *i.e.*, the Limit Order Filter, would be applicable to all limit orders, regardless of when they are entered.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes the proposal will provide market participants with additional protection from anomalous executions. Thus, the Exchange does not believe the proposal creates any significant burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has filed the proposed rule change pursuant to Section 19(b)(3)(A) of the Act⁷ and Rule 19b–4(f)(6) thereunder.⁸ Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it is filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act and Rule 19b–4(f)(6) thereunder.⁹

⁷ 15 U.S.C. 78s(b)(3)(A).

⁸ 17 CFR 240.19b–4(f)(6).

⁹ 17 CFR 240.19b–4(f)(6). As required under Rule 19b–4(f)(6)(iii), the Exchange provided the Commission with written notice of its intent to file the proposed rule change, along with a brief description and the text of the proposed rule

A proposed rule change filed pursuant to Rule 19b–4(f)(6) under the Act¹⁰ normally does not become operative for 30 days after the date of its filing. However, Rule 19b–4(f)(6)(iii)¹¹ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing. In support of its request, the Exchange states that the protections offered by this proposal are designed to contribute to a fair and orderly market and enhance the protection of investors by offering a level of price protection to pre-open limit orders that is not presently available. The Exchange states that waiving the 30-day delayed operative date will enable all market participants to benefit from the price protection offered by this proposal without delay. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest. Therefore, the Commission hereby waives the operative delay and designates the proposed rule change operative upon filing.¹²

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–72020; File No. SR–NYSEMKT–2014–72]

Self-Regulatory Organizations; NYSE MKT LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Amending Its Fees for Non-Display Use of NYSE MKT OpenBook, NYSE MKT Trades, and NYSE MKT BBO, and To Establish Fees for Non-Display Use of NYSE MKT Order Imbalances

September 9, 2014.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (the “Act”)² and Rule 19b–4 thereunder,³ notice is hereby given that, on August 26, 2014, NYSE MKT LLC (the “Exchange” or “NYSE MKT”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend its fees for non-display use of NYSE MKT OpenBook, NYSE MKT Trades, and NYSE MKT BBO, and to establish fees for non-display use of NYSE MKT Order Imbalances, operative on September 1, 2014. The text of the proposed rule change is available on the Exchange's Web site at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its non-display fees for NYSE MKT OpenBook, NYSE MKT Trades, and NYSE MKT BBO, to establish such fees for NYSE MKT Order Imbalances, and to establish managed non-display services fees for NYSE MKT BBO, operative on September 1, 2014.⁴

The Exchange established the current non-display and managed non-display services fees for NYSE MKT OpenBook, NYSE MKT Trades, and NYSE MKT BBO in April 2013.⁵ The Exchange now proposes to change those fees and to establish similar fees for NYSE MKT Order Imbalances.

Under the proposal, non-display use would continue to mean accessing, processing, or consuming an Exchange data product delivered via direct and/or Redistributor⁶ data feeds for a purpose other than in support of a data recipient's display or further internal or external redistribution (“Non-Display Use”). As is the case today, non-display and managed non-display services fees would apply to the Non-Display Use of the data product as part of automated calculations or algorithms to support trading decision-making processes or the operation of trading platforms.

The Exchange is proposing to expand the types of uses considered Non-Display Use to also include non-trading uses. In addition, the proposal would specify that Non-Display Use would include any trading use, rather than only certain types of trading, such as high frequency or algorithmic trading, as under the current fee structure. Under the proposal, examples of Non-Display Use would include any trading in any asset class, automated order or quote generation and/or order pegging, price referencing for algorithmic trading or smart order routing, operations control programs, investment analysis, order verification, surveillance programs, risk management, compliance, and portfolio management. The Exchange believes that non-trading uses benefit data recipients by allowing users to automate functions, achieving

⁴ The Exchange's affiliates have submitted or will be submitting similar proposals. See, e.g., SR–NYSE–2014–43.

⁵ See Securities Exchange Act Release No. 69285 (April 3, 2013), 78 FR 21172 (April 9, 2013) (SR–NYSEMKT–2013–32) (“2013 Release”).

⁶ “Redistributor” means a vendor or any person that provides a real-time NYSE data product to a data recipient or to any system that a data recipient uses, irrespective of the means of transmission or access.
