FR Federal Register
NPRM Notice of Proposed Rulemaking

A. Regulatory History and Information

On July 2, 2001, the Coast Guard published a final rule (66 FR 34822) modifying the regulations in 33 CFR § 100.1301, for the safe execution of the Seattle Seafair Unlimited Hydroplane races on the waters of Lake Washington. On April 14, 2014, an NPRM, Safety Zone, Seattle Seafair Unlimited Hydroplane Race, Seattle, WA, was published. The Coast Guard received no comments on the NPRM and no requests for public meeting. No changes were made to the rule published in the NPRM.

B. Basis and Purpose

Coast Guard District Commanders are authorized to promulgate special local regulations necessary to ensure safety of life on the navigable waters immediately prior to, during, and immediately after the approved regatta or marine parade. This rule makes stylistic revisions and amends the time in which the Special Local Regulation in 33 CFR 100.1301 is effective for each day of the Seafair Unlimited Hydroplane Race event located on Lake Washington, WA. This rule is necessary to ensure appropriate effectiveness of the rule in 33 CFR § 100.1301 by remaining effective during and immediately following the current time of marine event.

C. Discussion of Comments, Changes and the Final Rule

No comments were received by the Coast Guard on this rule. We are supplementing the regulatory text to provide additional information that clarifies our notice procedures.

D. Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking.

Below we summarize our analyses based on a number of these statutes or executive orders.

1. Regulatory Planning and Review

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Executive Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under those Orders. The Coast Guard bases this finding on the fact that the amendment of the effective period of the current regulation will be in place for a limited period of time and is minimal in duration.

2. Impact on Small Entities

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601-612, as amended, requires federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

This rule would affect the following entities, some of which may be small entities; the owners and operators of vessels intending to operate in the waters covered by the special local regulation while it is in effect. This rule would not have a significant economic impact on a substantial number of small entities because the amendment of the special local regulation would increase the duration in which the rule is in effect for a minimal amount of time.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104-121), we want to assist small entities in understanding this rule. If the rule would affect your small business,
