SUPPLEMENTARY INFORMATION:

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Abstract: The proposed information collection activity provides a means for the Food Safety and Inspection Service (FSIS) to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Agency's commitment to improving service delivery.

By "qualitative feedback" we mean information that provides useful insights on perceptions and opinions, but not a statistical survey that yields quantitative results that can be generalized to the population studied. Qualitative feedback provides insights into customer or stakeholder perceptions, experiences, and expectations; provides an early warning of issues with the Agency's customer service; and focuses attention on matters with respect to which communication, training, or changes in operations might improve delivery of products or services. This collection will allow for ongoing, collaborative, and actionable communications between the Agency and its customers and stakeholders. It will also allow the feedback to contribute directly to the improvement of program management.

The solicitation of qualitative feedback will target topics such as: Timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the Agency's services will be unavailable.

FSIS will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collection is voluntary;
- The collection is low-burden for respondents (based on considerations of total burden hours, total number of
