OMB Control Number: 0535-0109.

Expiration Date of Approval: January 31, 2015.

Type of Request: Intent to Seek Approval to Revise and Extend an Information Collection for 3 years.

Abstract: The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production, disposition, and prices. The Agricultural Labor Survey provides quarterly statistics on the number of agricultural workers, hours worked, and wage rates. Number of workers and hours worked are used to estimate agricultural productivity; wage rates are used in the administration of the H-2A Program and for setting Adverse Effect Wage Rates. Survey data are also used to carry out provisions of the Agricultural Adjustment Act. NASS intends to request that the survey be approved for another 3 years.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3501, et seq.) and Office of Management and Budget regulations at 5 CFR part 1320.

NASS also complies with OMB Implementation Guidance,

“Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA),” *Federal Register*, Vol. 72, No. 115, June 15, 2007, p. 33362.

Estimate of Burden: This information collection consists of three individual surveys. In April, NASS will collect data for the January and April quarters and in October, NASS will collect data for both the July and October quarters. Following these two surveys NASS will re-contact approximately 1,000 operators to conduct quality control surveys to help insure the quality of the data collected. The sample sizes will be increased in 2015 to achieve statistical targets. The public reporting burden for this information collection is estimated to average 5 minutes for the quality control surveys and 30 minutes per response in April and October.

Respondents: Farms and businesses.

Estimated Number of Respondents: 16,000.

Estimated Total Annual Burden on Respondents: 15,500 hours.

Copies of this information collection and related instructions can be obtained without charge from David Hancock, NASS Clearance Officer, at (202) 690-2388.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.
