(3) You can file a paper copy of your comments by mailing them to the following address:

Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Room 1A, Washington, DC 20426.

#### Environmental Mailing List

The environmental mailing list includes federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; other interested parties; and local libraries and newspapers. This list also includes all affected landowners (as defined in the Commission's regulations) who are potential right-of-way grantors, whose property may be used temporarily for Project purposes, or who own homes within certain distances of aboveground facilities, and anyone who submits comments on the Project. We will update the environmental mailing list as the analysis proceeds to ensure that we send the information related to this environmental review to all individuals, organizations, and government entities interested in and/or potentially affected by the proposed Project.

If we publish and distribute the EA, copies will be sent to the environmental mailing list for public review and comment. If you would prefer to receive a paper copy of the document instead of the CD version or would like to remove your name from the mailing list, please return the attached Information Request (appendix 2).

#### Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an "intervenor" which is an official party to the Commission's proceeding. Intervenor's play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission's final ruling. An intervenor formally participates in the proceeding by filing a request to intervene. Instructions for becoming an intervenor are in the User's Guide under the "e-filing" link on the Commission's Web site.

#### Additional Information

Additional information about the Project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC Web site at [www.ferc.gov](http://www.ferc.gov) using the

"eLibrary" link. Click on the eLibrary link, click on "General Search" and enter the docket number, excluding the last three digits in the Docket Number field (i.e., CP14-497). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at [FercOnlineSupport@ferc.gov](mailto:FercOnlineSupport@ferc.gov) or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission now offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to [www.ferc.gov/docs-filing/esubscription.asp](http://www.ferc.gov/docs-filing/esubscription.asp).

Finally, public meetings or site visits will be posted on the Commission's calendar located at [www.ferc.gov/EventCalendar/EventsList.aspx](http://www.ferc.gov/EventCalendar/EventsList.aspx) along with other related information.

#### New York Independent System Operator, Inc.; Notice of Compliance Filing

Take notice that, on August 26, 2014, the New York Independent System Operator, Inc. (NYISO) submitted a filing containing a demonstration of how its interim market power mitigation proposal meets the requirements of Order No. 755<sup>1</sup> and the Commission's November 6, 2012 order<sup>2</sup> as a permanent market power mitigation method, to comply with Ordering Paragraph (B) of the Commission's May 31, 2013 Order.<sup>3</sup>

<sup>1</sup> *Frequency Regulation Compensation in the Organized Wholesale Power Markets*, Order No. 755, FERC Stats. & Regs. ¶ 31,324 (2011), *order denying reh'g*, Order No. 755-A, 138 FERC ¶ 61,123 (2012).

<sup>2</sup> *New York Independent System Operator, Inc.*, 141 FERC ¶ 61,105 (2012).

<sup>3</sup> *New York Independent System Operator, Inc.*, 143 FERC ¶ 61,194 (2013).

Any person desiring to intervene or to protest the foregoing compliance portion of this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant and all the parties in this proceeding.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for electronic review in the Commission's Public Reference Room in Washington, DC. #### Freeport LNG Liquefaction Project, Phase II Modification Project; Notice of Availability of Final General Conformity Determination

In accordance with the National Environmental Policy Act of 1969, the Clean Air Act and the Federal Energy Regulatory Commission's (Commission or FERC's) regulations, Commission

staff has prepared this final General Conformity Determination (GCD) for the Freeport LNG Liquefaction and Phase II Modification Projects (collectively called Projects) to ensure that the Projects do not violate the Texas State Implementation Plan and address the potential air quality impacts associated with the construction and operation of liquefied natural gas facilities proposed by Freeport LNG Development, L.P., FLNG Liquefaction, LLC, FLNG Liquefaction 2, LLC, and FLNG Liquefaction 3, LLC (collectively known as Freeport LNG).

The FERC staff concludes that the Projects will achieve conformity with the Texas State Implementation Plan and has received concurrence from the Texas Commission on Environmental Quality.

Freeport LNG's development is composed of multiple components in Brazoria County, Texas. The main Liquefaction Plant, located on Quintana Island, will be three propane pre-cooled mixed refrigerant trains, each with a capacity of 4.4 million metric tons per year of liquefied natural gas (LNG) for export, which equates to a total liquefaction capacity of approximately 1.8 billion cubic feet per day of natural gas. The trains and their support facilities are collectively referred to as the Liquefaction Plant.

In addition to the Liquefaction Plant described above, Freeport LNG proposes to construct various facilities, both at and adjacent to the Quintana Island Terminal and beyond Quintana Island, to support the liquefaction and export operation. These facilities include a natural gas Pretreatment Plant located about 3.5 miles north of the Terminal, and several interconnecting pipelines and utility lines called the Pipeline/Utility Line System.

In addition, for additional information on the Projects, the public can view the final environmental impact statement on our Web site at <http://www.ferc.gov/industries/gas/enviro/eis/2014/06-16-14-eis.asp>. The full final General Conformity Determination, and response to comments, may be found on FERC's eLibrary system under the above references Docket numbers.
