

improve the performance of computer safety models that simulate postulated SFP accident/fire scenarios. The petition states that the fourth proposed regulation would require that licensees use conservative SFP accident evaluation models to perform annual SFP safety evaluations of postulated complete LOCA scenarios, postulated partial LOCA scenarios, and postulated boil-off accident scenarios. The petition states that the purpose of these evaluations would be to keep the NRC informed of the potential consequences of postulated SFP accident/fire scenarios as fuel assemblies were added, removed, or reconfigured in licensees' SFPs.

SUPPLEMENTARY INFORMATION: On September 12, 2014, FHFA published in the **Federal Register** a notice of proposed rulemaking and request for comments proposing to revise its regulations governing Bank membership, located at 12 CFR part 1263. See 79 FR 54847 (Sept. 12, 2014). Primarily, the proposed rule would revise part 1263 to: (1) Require each Bank member institution and each applicant for Bank membership to hold one percent of its assets in "home mortgage loans" (as that term is defined in proposed part 1263) in order to satisfy the statutory requirement that an institution make long-term home mortgage loans to be eligible for membership; (2) require each member to comply on an ongoing basis, rather than only at the time of application as at present, with the foregoing requirement and, where applicable, with the requirement that it have at least 10 percent of its assets in "residential mortgage loans" (as defined in proposed part 1263); (3) define the term "insurance company" to exclude captive insurers from Bank membership, but permit existing captive members to remain members for five years with

certain restrictions on their ability to obtain advances; (4) require a Bank to obtain and review an insurance company's audited financial statements when considering it for membership; and (5) clarify the standards by which an insurance company's "principal place of business" is to be identified in determining the appropriate Bank district for membership.

The comment period for the proposed rule was originally set to expire on November 12, 2014. However, FHFA has received numerous requests from the Banks and from other interested parties for additional time to review the rule and provide comments. In response to these requests, FHFA is extending the comment period by an additional 60 days. This will result in a total comment period of 120 days, which will expire on January 12, 2015.

Dated: October 1, 2014.

Melvin L. Watt,

Director, Federal Housing Finance Agency.

Airworthiness Directives; Beechcraft Corporation Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: We propose to adopt a new airworthiness directive (AD) for certain Beechcraft Corporation Model G58 airplanes. This proposed AD was prompted by reports of fuel leaks due to fuel cells that did not properly fit in Model G58 airplanes. This proposed AD would require inspecting for and replacing, as necessary, certain fuel cells. This proposed AD would also require inspecting and replacing parts, as necessary, of the left and right fuel system installations and correcting torques on fuel system fittings; and prohibit future installations of certain fuel cells. We are proposing this AD to correct the unsafe condition on these products.

DATES: We must receive comments on this proposed AD by November 21, 2014.
