

banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The applications will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than October 31, 2014.

#### SUPPLEMENTARY INFORMATION:

##### A. Purpose

The Federal Funding Accountability and Transparency Act ("Transparency Act"), Public Law 109-282, as amended by section 6202 of Public Law 110-252, was enacted to reduce "wasteful and unnecessary spending" by requiring that OMB establish a free, public, online database containing full disclosure of all

Federal contract award information for awards of \$25,000 or more.

DoD, GSA, and NASA published an interim rule for public comment at 75 FR 39414, on July 8, 2010, to implement the Transparency Act reporting requirements. The rule requires the insertion of FAR clause 52.204-10, Reporting Executive Compensation and First-Tier Subcontract Awards, in solicitations and contracts (including commercial item contracts and commercially available off-the-shelf (COTS) item contracts) of \$25,000 or more.

The clause at 52.204-10 requires, unless otherwise directed by the contracting officer, for first-tier subcontracts valued at \$25,000 or more, prime contractors to report first-tier subcontract award data (e.g., name, amount, address, etc.). If the contractor in the previous tax year had gross income, from all sources, under \$300,000, the contractor is exempt from the requirement to report first-tier subcontract awards. If a first-tier subcontractor in the previous tax year had gross income from all sources under \$300,000, the contractor does not need to report awards to that first-tier subcontractor. Contractors will provide these subcontract reports to the Federal Funding Accountability and Transparency Act Subaward Reporting System (FSRS) (<http://www.fsr.gov>). DoD, GSA, and NASA note that there is pre-population of some data in FSRS from other Government systems.

The clause at 52.204-10 also requires a contractor to report in the System for Award Management (SAM) database at <https://www.sam.gov>, the names and total compensation of each of its five most highly compensated executives for the contractor's preceding completed fiscal year. Contractors and first-tier subcontractors are not required to report the total compensation information required by the rule, unless—

(i) In the contractor or subcontractor's preceding fiscal year, the contractor or subcontractor received—

(1) 80 percent or more of its annual gross revenues in Federal contracts (and subcontracts), loans, grants (and subgrants), cooperative agreements; and

(2) \$25,000,000 or more in annual gross revenue from Federal contracts (and subcontracts), loans, grants (and subgrants), cooperative agreements; and

(ii) The public does not have access to information about the compensation of the executives through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986. (To determine if the public has

access to the compensation information, see the U.S. Securities and Exchange Commission total compensation filings at <http://www.sec.gov/answers/execomp.htm>.)

### B. Annual Reporting Burden

The total annual burden associated with the reporting requirements of FAR 52.204–10 is estimated to be \$33,230,972.

1. *Reporting first-tier subcontract award information.* The FY13 Federal Procurement Data System (FPDS) data collected for new contract actions valued at \$25,000 or greater, indicated that there were 155,292 contractors with unique DUNS numbers. It is estimated that based on the exemptions in the rule (e.g., contractors in the previous tax year with less than \$300,000 in gross income do not have to report), seventy-five percent of the contractors with actions valued at \$25,000 or greater would be subject to the reporting requirements, which would be 116,469 contractors. The burden to report the subcontractor award information (e.g., name, amount, address, etc.) under FAR 52.204–10 is estimated to average 2 hours per response for a prime contractor and approximately three first-tier subcontractors per prime contractor. We estimate the total annual public cost burden for these elements to be \$30,747,816 based on the following:

*Registrants:* 116,469.

*Responses per respondent:* 3.

*Total annual responses:* 349,407.

*Preparation hours per response:* 2.

*Total response burden hours:* 698,814.

Average hourly wages (\$33.00 + 36.25% overhead. Rounded to nearest dollar): \$45.00.

*Estimated cost to the public:* \$30,747,816.

2. *Reporting executive compensation.* There were 367,875 active registrants in SAM as of September 17, 2014. Of the 367,875 total active registrants, 360,000 were screened out by two questions supporting the rule's requirements, i.e., didn't have 80% or more of their annual gross revenue in U.S. Federal contracts, grants, and/or cooperative agreements and didn't make more than \$25 million in annual gross revenue, or did have 80% or \$25 million from Federal contracts/grants/cooperative agreements, but the public already had access to the information. It is estimated that it would require those 360,000 registrants 0.10 hours per response, for a total of 36,000 response hours.

A total of 7,875 SAM registrants would be required to enter actual values for their top five most highly compensated executives. It is estimated that it would require these 7,875

registrants 2.5 hours to provide the information required, for a total of 19,688 response hours.

Therefore, it is estimated that the total population of respondents is 367,875, and the total estimated response hours is 55,688, resulting in a weighted average of 0.15 hours per respondent for executive compensation reporting.

The Councils estimate the total annual public cost burden for this element to be \$2,483,156 based on the following:

*Registrants:* 367,875.

*Responses per respondent:* 1.

*Total annual responses:* 367,875.

*Preparation hours per response:* 0.15.

*Total response burden hours:* 55,181.

*Average hourly wages:* (\$33.06 + 36.25% overhead. Rounded to nearest dollar): \$45.00.

*Estimated cost to the public:* \$2,483,156.

Based on the above calculations, DoD, GSA, and NASA estimate the total annual burden associated with reporting requirements of FAR 52.204–10 to be \$33,230,972. The reporting burden includes the time for reviewing instructions, and reporting the data. It does not cover the time required to conduct research or the time to obtain the information for the data elements.

### C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

### Centers for Disease Control and Prevention

[30-Day–15–0919]

#### Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) has submitted the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The notice for the proposed information collection is published to obtain comments from the public and affected agencies.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address any of the following: (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) Enhance the quality, utility, and clarity of the information to be collected; (d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and (e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639–7570 or send an email to [omb@cdc.gov](mailto:omb@cdc.gov). Written comments and/or suggestions regarding the items contained in this notice should be directed to the Attention: CDC Desk Officer, Office of Management and Budget, Washington, DC 20503 or by fax to (202) 395–5806. Written comments should be received within 30 days of this notice.
