of a tie of bids submitted by interested designated bidders, the tied interested designated bidders will be given an opportunity to submit a written agreement as to the division of land, or an additional sealed bid, meeting the above-stated requirements, within 30 days of written notification of eligibility. The successful bidder will be given 180 days from the date of the sale to submit the remainder of the full purchase price.

If any of the subject tracts are not sold on December 8, 2014, the tract will be re-offered on a continuing basis in accordance with the competitive sale procedures described in 43 CFR 2711.3–1. Sealed bids prepared and submitted in the manner described above will be accepted from any qualified bidder. Bids will be opened at 10:00 a.m., on the 7th day of each month thereafter, for 60 days, until a high bidder is declared.

Federal law requires that public land may be sold only to either (1) citizens of the United States, 18 years of age or over; (2) corporations subject to the laws of any State or of the United States; (3) a State, instrumentality or political subdivision authorized to hold property; (4) an entity legally capable of conveying and holding lands or interests therein under the laws of the State within which the lands to be conveyed are located. Certifications and evidence to this effect will be required of the purchaser prior to issuance of a patent.

The following rights, reservations, and conditions will be included in the patent conveying the land:

1. A right-of-way is reserved for ditches and canals constructed by authority of the United States under the Act of August 30, 1890 (26 Stat. 291; 43 U.S.C. 945).
2. The tracts are subject to all valid existing rights and reservations of record.
3. An appropriate indemnification clause protecting the United States from claims arising out of the lessee/patentee’s use, occupancy, or occupations on the leased/patented lands. Pursuant to the requirements established by Section 120(h) of the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. 9620 (h) (CERCLA), as amended, notice is hereby given that the lands have been examined and no evidence was found to indicate that any hazardous substances have been stored for 1 year or more, nor had any hazardous substances been disposed of or released on the subject property. No representation, warranty, or covenant of any kind, express or implied, is given or made by the United States as to access to or from any parcel of land, the title, whether or to what extent the land may be developed, its physical condition, present or potential uses, or any other circumstance or condition.

All persons, other than the successful bidders, claiming to own unauthorized improvements on the land are allowed 60 days from the date of sale to remove the improvements.

A successful bid for each tract will constitute an application for conveyance of the mineral estate in accordance with Section 209 of the FLPMA (43 U.S.C. 1719). Those mineral interests will be conveyed simultaneously with the sale of the land, and have been determined by BLM to have no known mineral value. At the closing, the purchaser will pay to the BLM a non-refundable fee of $50.00 in accordance with 43 CFR 2720.1–2(c).

On October 8, 2014, the above-described lands will be segregated from appropriation under the public land laws, including the mining laws, except from the sale provisions of FLPMA. Until completion of the sale, the BLM is no longer accepting land use applications affecting the identified public lands, except applications for the amendment of previously filed right-of-way applications or existing authorizations to increase the term of the grants in accordance with 43 CFR 2807.15 and 2886.15. The segregative effect will terminate upon issuance of a patent, publication in the Federal Register of a termination of the segregation, or October 8, 2016, unless extended by the BLM State Director in accordance with 43 CFR 2711.1–2(d) prior to the termination date.
