ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

[Docket No. ATBCB-2014-0002]

RIN 3014-0011

Agency Information Collection Activities: Requests for Comments; Clearance of Renewed Approval of Information Collection: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

AGENCY: Architectural and Transportation Barriers Compliance Board.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3521), the Architectural and Transportation Barriers Compliance Board (Access Board) invites public comments about our intention to request the Office of Management and Budget's (OMB) approval to renew a generic information collection. The **Federal Register** notice with a 60-day comment period soliciting comments on the following collection of information was published on July 28, 2014 (79 FR 43709). As part of a federal government-wide effort to streamline the process for seeking feedback from the public on service delivery, the Access Board has an approved Generic Information Collection Request entitled "Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery." A copy of the draft supporting statement is available at <http://www.regulations.gov> (see Docket ID ATBCB-2014-0002).

DATES: Submit comments by November 10, 2014.

ADDRESSES: Submit comments by any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

Regulations.gov. ID for this docket is ATBCB-2014-0002.

- *Email:* damiani@access-board.gov. Include docket number ATBCB-2014-0002 in the subject line of the message.

- *Fax:* (202) 272-0081.

- *Mail or Hand Delivery/Courier:*

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3014-0011.

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Type of Review: Renewal of a generic information collection.

Background: The proposed information collection activity provides a means to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Access Board and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting

program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

Respondents: Average annual estimate of approximately 1,100 Individuals and Households, Businesses and Organizations, State, Local or Tribal Government.

Below, we provide projected average estimates for the next three years:

Average Expected Annual Number of Activities: 7.

Average Number of Respondents per Activity: 157.

Annual Responses: 1,100.

Frequency of Response: Once per request.

Estimated Average Burden per Response: 7.25 minutes.

Estimated Total Annual Burden: 120 hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) whether the proposed collection of information is necessary for the Access Board's performance; (b) the accuracy of the estimated burden; (c) ways for the Access Board to enhance the quality, utility, and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. We will summarize comments received in the request for OMB's clearance of this information collection.

Executive Director.

BILLING CODE 8150-01-P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the

Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).
Title: Billfish Certificate of Eligibility.
OMB Control Number: 0648-0216.
Form Number(s): NA.

Type of Request: Regular (extension of a current information collection).

Number of Respondents: 200.

Average Hours per Response: Initial dealer completion, 20 minutes; subsequent dealer completion, 2 minutes.

Burden Hours: 43.

Needs and Uses: This request is for an extension of a currently approved information collection.

A Certificate of Eligibility (COE) for Billfishes is required under 50 CFR part 635 to accompany all billfish, except for a billfish landed in a Pacific state and remaining in the state of landing. This documentation certifies that the accompanying billfish was not harvested from the applicable Atlantic Ocean management unit (described on the NOAA sample certificate), and identifies the vessel landing the billfish, the vessel's homeport, the port of offloading, and the date of offloading. The certificate must accompany the billfish to any dealer or processor who subsequently receives or possesses the billfish. The extension of this collection is necessary to implement the Consolidated Highly Migratory Species Fishery Management Plan, which contains an objective to reserve Atlantic billfish for the recreational fishery.

On October 5, 2012, the President signed Public Law 112-183 entitled the "Billfish Conservation Act of 2012," which prohibits the sale of billfish (or products containing billfish), or the custody, control, or possession of billfish (or products containing billfish) for purposes of sale. The only exemptions to this prohibition include billfish landed by U.S. fishing vessels in Hawaii and Pacific Insular Areas, and billfish landed by foreign fishing vessels in the Pacific Insular Areas when the foreign-caught billfish are exported to non-U.S. markets or retained within Hawaii and the Pacific Insular Areas for local consumption. NOAA is currently developing implementing regulations for the Billfish Conservation Act. If necessary, upon publication of the proposed rule, the information collection associated with the Billfish Certificate of Eligibility (0648-0216) may be revised accordingly.

Affected Public: Business or other for-profit organizations.

Frequency: On occasion.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Dated: October 6, 2014.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).
Title: Alaska Halibut Catch Sharing Plan Survey.

OMB Control Number: 0648-xxxx.

Form Number(s): NA.

Type of Request: Regular (request for a new information collection).

Number of Respondents: 602.

Average Hours Per Response: Full survey, 30 minutes; follow-up telephone survey, 10 minutes.

Burden Hours: 186.

Needs and Uses: This request is for a new information collection.

Numerous management measures have recently been proposed or implemented that affect recreational charter boat fishing for Pacific halibut off Alaska, including the adoption of a Halibut Catch Sharing Plan (78 FR 75843) in International Pacific Halibut Commission Regulatory Areas 2C and 3A that alters the way Pacific halibut is allocated between the guided sport (i.e., the charter sector) and the commercial halibut fishery. The Catch Sharing Plan (CSP) formalizes the annual process of allocating catch between the commercial sector and charter sector and for determining harvest restrictions in the charter sector (78 FR 75843). In addition, the CSP allows leasing of commercial halibut individual fishing quota (IFQ) by eligible charter businesses holding a charter halibut permit (CHP). The IFQ pounds are leased in terms of number of fish, called

guided angler fish (GAF), which are determined based on a conversion rate published by the National Marine Fisheries Service (NMFS). Leased GAF can be used by charter businesses to relax harvest restrictions for their angler clients, since the fish caught under the leased GAF would not be subject to the charter sector-specific size and bag limits that may be imposed—though the non-charter sector size and bag limit restrictions (currently two fish of any size per day) would still apply to charter anglers who are not using GAF.

To help inform potential future policy discussions about the CSP, NMFS Alaska Fisheries Science Center plans to conduct a survey that will collect information on general attitudes toward the CSP and the GAF leasing program from Area 2C and Area 3A charter boat businesses (CHP holders), and ask them to indicate their preferences for hypothetically relaxing specific features of the GAF leasing program that are employed in similar types of programs in both fisheries and non-fisheries contexts. This information could provide valuable information to the North Pacific Fishery Management Council in its evaluation of the current features of the CSP and provide information that may help it evaluate adjustments to the CSP. The survey will also provide a broad gauge of attitudes toward the program and its impacts on the charter sector and anglers.

Affected Public: Business or other for-profit organizations.

Frequency: One time.

Respondent's Obligation: Voluntary.
