**I. Introduction**

On October 1, 2014, the Postal Service filed a request for a semi-permanent exception from periodic reporting of service performance measurement for Alaska Bypass Service pursuant to 39 CFR 3055.3.<sup>1</sup>

Section 3055.3 provides that the Postal Service may request that a product, or a component of a product, be excluded from service performance measurement reporting upon demonstrating that:

1. The cost of implementing a measurement system would be prohibitive in relation to the revenue generated by the product, or component of a product;
2. The product, or component of a product, defies meaningful measurement; or
3. The product, or component of a product, is in the form of a negotiated

service agreement with substantially all components of the agreement included in the measurement of other products.

The Postal Service contends that the cost of implementing a measurement system would be prohibitive in relation to the revenue generated by Alaska Bypass Service and thus falls within the 39 CFR 3055.3(a)(1) exclusion. Request at 9–11.
