

When we publish and distribute the EIS, copies will be sent to the environmental mailing list for public review and comment. If you would prefer to receive a paper copy of the document instead of the CD version or would like to remove your name from the mailing list, please return the attached Information Request (Appendix 2).

Becoming an Intervenor

Once LLNGE files its application with the Commission, you may want to become an “intervenor” which is an official party to the Commission’s proceeding. Intervenor play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission’s final ruling. An intervenor formally participates in the proceeding by filing a request to intervene. Instructions for becoming an intervenor are in the User’s Guide under the “e-filing” link on the Commission’s Web site. Please note that the Commission will not accept requests for intervenor status at this time. You must wait until the Commission receives a formal application for the project.

Additional Information

Additional information about the Project is available from the Commission’s Office of External Affairs, at (866) 208–FERC, or on the FERC Web site at www.ferc.gov using the “eLibrary” link. Click on the eLibrary link, click on “General Search” and enter the docket number, excluding the last three digits in the Docket Number field (i.e., PF14–17). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208–3676, or for TTY, contact (202) 502–8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission now offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Finally, public meetings or site visits will be posted on the Commission’s calendar located at www.ferc.gov/EventCalendar/EventsList.aspx along with other related information.

n. Scoping Process

The Commission intends to prepare an Environmental Assessment (EA) on the project in accordance with the National Environmental Policy Act. The EA will consider both site-specific and cumulative environmental impacts and reasonable alternatives to the proposed action.

The State Water Board has not determined what type of environmental document it will prepare at this time and is seeking input from agencies and interested parties as part of the scoping process.

Scoping Meetings

In addition to written comments solicited by this SD1, we will hold two public scoping meetings and an Environmental Site Review in the vicinity of the project. A daytime meeting will focus on concerns of the resource agencies, nongovernmental organizations (NGOs), and Indian tribes. An evening meeting will focus on receiving input from the public. We invite all interested agencies, Indian tribes, NGOs, and individuals to attend one or both of the meetings to assist us in identifying the scope of environmental issues that should be analyzed in the EA and the State Water Board's environmental document.

These scoping meetings are being coordinated with the State Water Board and are considered joint scoping meetings for the purposes of both the National Environmental Policy Act (NEPA) and the California Environmental Quality Act (CEQA), should the State Water Board prepare an environmental impact report (EIR). (See Cal. Code Regs., tit. 14, 15083, 15223, 15226.) This notice is intended to provide notice of the State Water Board's informal consultation with responsible and trustee agencies pursuant to section 15063 of the CEQA Guidelines as to the potential for the proposed action to cause a significant impact to the environment. (Cal. Code Regs., tit. 14, 15063, subd. (g).) Recipients of this notice are invited to comment on whether an EIR, negative declaration, or mitigated negative declaration should be prepared. In addition, pursuant to CEQA Guidelines section 15083, subdivision (c), these meetings are intended to simultaneously serve the purposes identified in

California Code of Regulations, title 14, section 15082, subdivision (c). Any responsible or trustee agency or other interested parties that believes an EIR should be prepared should identify the scope and content of any environmental information it believes should be required, should the State Water Board prepare an EIR.

The times and locations of the meetings are as follows:

Daytime Scoping Meeting

Date and Time: Wednesday, November 5, 2014, 9:00 a.m. (PST).

Environmental Site Review

The Applicant and FERC staff will conduct a project Environmental Site Review beginning at 8:00 a.m. (PST) on Thursday, November 6, 2014. All interested individuals, organizations, and agencies are invited to attend. All participants should meet at the Walmart Parking Lot, 1025 S. Main St., Red Bluff, California. All participants are responsible for their own transportation to the meeting site. Anyone with

questions about the Environmental Site Review (or needing directions) should contact Charlie Kuffner of Rugraw, LLC at (415) 652-8553 or email at charlie.kuffner@gmail.com. Those individuals planning to participate in the Environmental Site Review should notify Mr. Kuffner of their intent, no later than Friday, October 31, 2014. For more details about the Environmental Site Review, including meeting locations, transportation options, meal options, and the itinerary, please see the information in Appendix A of the SD1.

Objectives

At the scoping meetings, the staff will: (1) Summarize the environmental issues tentatively identified for analysis in the EA and CEQA document; (2) solicit from the meeting participants all available information, especially quantifiable data, on the resources at issue; (3) encourage statements from experts and the public on issues that should be analyzed in the EA, and CEQA document, including viewpoints in opposition to, or in support of, the staffs' preliminary views; (4) determine the resource issues to be addressed in the EA and CEQA document; (5) identify those issues that require a detailed analysis, as well as those issues that do not require a detailed analysis; (6) solicit from the meeting participants, input to the State Water Board on the type of CEQA document that should be prepared, and (7) solicit from any responsible or trustee agency or other interested parties that believes an EIR should be prepared, environmental information to identify the scope and content of an EIR should the State Water Board determine an EIR should be prepared.

Procedures

The meetings will be recorded by a stenographer and become part of the formal record of the Commission and State Water Board proceedings on the project.

Individuals, organizations, and agencies with environmental expertise and concerns are encouraged to attend the meeting(s) and to assist the staff in defining and clarifying the issues to be addressed in the EA and CEQA document.
