

3.8.6.6 by reducing the required Battery 22 capacity from 85 percent to 80 percent through March 6, 2015. The change is necessary because questions have been raised about the continued operability of the battery until the next scheduled surveillance test that is due by March 7, 2015. The questions are based on a concern that the Battery 22 will degrade and no longer meet Surveillance Requirement 3.8.6.6 before the next scheduled test and therefore must be demonstrated to meet the criteria to ensure strict technical specification compliance.

II. Discussion

Southern California Edison Company (SCE), San Diego Gas & Electric Company, City of Riverside Utilities Department, and the City of Anaheim, California, (the licensees), are the holders of Facility Operating License Nos. NPF-10 and NPF-15, for SONGS Units 2 and 3, respectively. Southern California Edison Company is authorized to act as the agent of the

other owners. By letter dated June 12, 2013 (ADAMS Accession No. ML131640201), SCE submitted a certification to the NRC indicating it permanently ceased power operations at the SONGS Units 2 and 3 on June 7, 2013. By letters dated July 22, 2013 (ADAMS Accession No. ML13204A304), and June 28, 2013 (ADAMS Accession No. ML13183A391), respectively, SCE certified that it had permanently defueled the SONGS Units 2 and 3 reactor vessels.

The facility consists of two permanently shutdown and defueled pressurized-water reactors located in San Diego County, California.

On September 23, 2014, SCE submitted the PSDAR and DCE for SONGS Units 2 and 3 in accordance with § 50.82(a)(4)(i) of Title 10 of the *Code of Federal Regulations* (ADAMS Accession No. ML14272A121). The PSDAR includes a description of the planned decommissioning activities, a proposed schedule for their accomplishment, the site-specific DCE (submitted concurrently), and a discussion that provides the basis for concluding that the environmental impacts associated with the site-specific decommissioning activities will be bounded by appropriate, previously issued generic and plant-specific environmental impact statements.

III. Request for Comment and Public Meeting

The NRC is requesting public comments on the PSDAR and DCE for SONGS Units 2 and 3. The NRC will conduct a public meeting to discuss the PSDAR and DCE and receive comments on Monday, October 27, 2014, from 6 p.m. until 9 p.m., PDT, at the Omni La Costa, 2100 Costa Del Mar Road, Carlsbad, CA 92009. The NRC requests that comments that are not provided during the meeting be submitted in writing by December 22, 2014.

Dated at Rockville, Maryland, this 2nd day of October, 2014.
