Once the submitted DRT studies have been reviewed and evaluated by OPP, and the results are posted on the Agency's Web site, then pesticide registrants have the option of amending their label to include DRT-rated application methods. This requires the submission of a complete application including a Pesticide Registration Improvement Act (PRIA) fee, or request for waiver or reduction. OPP will complete its review of the amendment according to the PRIA timeframe.

Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The consolidation was approved by OMB on August 15, 2014.

The information collection requirements which remain in this collection require are as follows: (1)

Local Multipoint Distribution Systems (LMDS) licensees to serve copies of their applications on all Non-Geostationary Mobile Satellite Service (NGSO/MSS) applicants (Section 101.147) and (2) NGSO/MSS feeder link earth stations must specify a set of geographic coordinates for location of these earth stations, 15 days after the release of a public notice announcing commencement of LMDS auctions (Section 101.147).

If this information is compiled less frequently or not filed in conjunction with our rules, applicants and licensees will not obtain the authorization necessary to provide telecommunications services. Furthermore, the Commission would not be able to carry out its mandate as required by statute and applicants and licensees would not be able to provide service effectively.
