Proposed Supplementary Rules for the Castle Rocks Land Use Plan Amendment Area, Idaho

AGENCY: Bureau of Land Management,
Interior.

ACTION: Notice of proposed
supplementary rules.

SUMMARY: The Bureau of Land Management (BLM) is proposing supplementary rules for all BLM-administered public lands within an approximately 400-acre area in Idaho known as Castle Rocks. The BLM addressed this area in the November 2013 Cassia Resource Management Plan (CRMP) Amendment and Record of Decision (ROD). The CRMP amendment made implementation-level decisions designed to conserve natural and cultural resources while providing for recreational opportunities. These supplementary rules would allow the BLM and law enforcement partners to enforce those decisions.

DATES: Interested parties may submit written comments regarding the

proposed supplementary rules until December 15, 2014.

ADDRESSES: You may submit comments by mail, electronic mail, or hand-delivery. Mail or Hand Delivery: Dennis Thompson, Outdoor Recreation Planner, Bureau of Land Management, Burley Field Office, 15 East 200 South, Burley, ID 83318. email: blm_id_monumentcassiarmpamend@blm.gov.

FOR FURTHER INFORMATION CONTACT: Dennis Thompson, Outdoor Recreation Planner, at 208–677–6664 or by email at dthompson@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 to contact Mr. Thompson.

I. Background

Castle Rocks is a dramatic geologic area located in the southern Albion Mountain Range of Cassia County, Idaho. Castle Rocks consists primarily of quartz-monzonite, a type of granite associated with the Almo Pluton. Pinnacles and monoliths, towering over 400 feet in local relief, characterize the area. Castle Rocks currently contains near pristine cultural and natural resources.

Until 2003, a difficult and lengthy hike from Stines Pass was the only way for the public to reach Castle Rocks, due to the unique ownership pattern and

geography of the surrounding lands.

This limited access helped preserve rare resources that are of great importance to the Shoshone-Bannock Tribes of Fort Hall and the Shoshone-Paiute Tribes of Duck Valley. Castle Rocks became less isolated after passage of the Castle Rock Ranch Acquisition Act of 2000 (Pub. L. 106–421), which authorized the National Park Service (NPS) to purchase a private ranch that provided convenient public access on the east side of the geologic area. After the acquisition, the NPS exchanged the property with the Idaho Department of Parks and Recreation (IDPR) for other lands adjacent to existing NPS properties.

Since May 25, 2003, the IDPR has provided park facilities and has managed recreation at Castle Rocks. Starting in 2003, the BLM has protected the 400-acre parcel that is under its management by issuing a series of temporary closure orders prohibiting rock climbing, camping, staging, and trail building. In 2012, the BLM determined that amending the CRMP was necessary to properly manage the area. The decision in the CRMP was to close the area permanently to rock climbing, camping, staging, and trail building. This decision was made to protect significant cultural resources that were, or had the potential to be, adversely impacted by these activities. The Shoshone-Bannock Tribes of Fort Hall and the Shoshone-Paiute Tribes of Duck Valley consider the area a sacred site and have requested the assistance of the Burley Field Office in nominating
