

“Revisions to Rules Authorizing the Operation of Low Power Auxiliary Stations in the 698–806 MHz Band.” This order expanded eligibility for low power auxiliary station licenses under Part 74 by adding two new categories of eligible entities: “Large venue owner or operator” and “professional sound company.” To accommodate these changes we are revising Schedule H of Form 601 to add two new categories of eligible entities: “Large venue owner or operator” and “professional sound company.” In order to be eligible for a Part 74 license, a large venue owner or operator and a professional sound company must routinely use 50 or more low power auxiliary station devices, where the use of such devices is an integral part of major events or productions. We also increased the number of respondents by 200 responses to include these new applicants.

The Commission therefore seeks approval for a revision to its currently approved information collection on FCC Form 601 to revise Schedule H accordingly and increase the total number of respondents by 200 and the number of responses by 200.
