

exemption provisions, which are found at 40 CFR § 63.6(f)(1) and (h)(1).

Accordingly, EPA no longer allows sources the SSM exemption as provided for in the vacated provisions at 40 CFR § 63.6(f)(1) and (h)(1), even though EPA has not yet formally removed these SSM exemption provisions from the General Provisions of 40 CFR Part 63. Because Virginia incorporated 40 CFR Part 63 by reference, Virginia should also no longer allow sources to use the former SSM exemption from the General Provisions of 40 CFR Part 63 due to the Court's ruling in *Sierra Club vs. EPA*.

EPA appreciates Virginia's continuing NESHAP and NSPS enforcement efforts, and also Virginia's decision to take automatic delegation of additional and more recent NESHAP and NSPS by adopting them by reference.

Sincerely,

Diana Esher, Director

Air Protection Division"

This notice acknowledges the update of Virginia's delegation of authority to implement and enforce NESHAP and NSPS.

Dated: October 1, 2014.

David Arnold,

Acting Director, Air Protection Division, Region III.

Needs and Uses: FCC Form 601 is a consolidated, multi-part application form that is used for market-based and site-based licensing for wireless telecommunications services, including public safety licenses, which are filed through the Commission's Universal Licensing System (ULS). FCC Form 601 is composed of a main form that contains administrative information and a series of schedules used for filing technical and other information. This form is used to apply for a new license, to amend or withdraw a pending application, to modify or renew an existing license, cancel a license, request a duplicate license, submit required notifications, request an extension of time to satisfy construction requirements, or request an administrative update to an existing license (such as mailing address change), request a Special Temporary Authority or Developmental License. Respondents are encouraged to submit FCC Form 601 electronically and are required to do so when submitting FCC Form 601 to apply for an authorization for which the applicant was the winning bidder in a spectrum auction.

The data collected on FCC Form 601 includes the FCC Registration Number (FRN), which serves as a "common link" for all filings an entity has with the FCC. The Debt Collection Improvement Act of 1996 requires entities filing with the Commission use an FRN.

On June 2, 2014, the Commission released a Second Report and Order FCC 14-62, WT Docket Nos. 08-166 and 08-167 and ET Docket No. 10-24,

“Revisions to Rules Authorizing the Operation of Low Power Auxiliary Stations in the 698–806 MHz Band.” This order expanded eligibility for low power auxiliary station licenses under Part 74 by adding two new categories of eligible entities: “Large venue owner or operator” and “professional sound company.” To accommodate these changes we are revising Schedule H of Form 601 to add two new categories of eligible entities: “Large venue owner or operator” and “professional sound company.” In order to be eligible for a Part 74 license, a large venue owner or operator and a professional sound company must routinely use 50 or more low power auxiliary station devices, where the use of such devices is an integral part of major events or productions. We also increased the number of respondents by 200 responses to include these new applicants.

The Commission therefore seeks approval for a revision to its currently approved information collection on FCC Form 601 to revise Schedule H accordingly and increase the total number of respondents by 200 and the number of responses by 200.

Federal Communications Commission.

Secretary, Office of the Secretary, Office of the Managing Director.
