

The February 5, 2013 petition requested that the Administrator object to the proposed title V operating permit issued by MDE (Permit No. 24-023-0042), on the grounds that it did not contain testing and monitoring requirements sufficient to assure compliance with limits for sulfur dioxide (SO₂) and particulate matter (PM) emissions from the facility's thermal dryer.

The Order explains the reasons behind EPA's decision to grant the petition for objection.

Dated: October 3, 2014.

William C. Early,

Acting, Regional Administrator, Region III.

SUPPLEMENTARY INFORMATION:

Background: Pursuant to the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C., App., notice is hereby given that the SAB CAAC TMB Panel will hold public teleconferences to discuss its draft report regarding the draft IRIS *Toxicological Review of Trimethylbenzenes* (August 2013 Revised External Review Draft) and enhancements the agency is implementing to the IRIS program. The EPA SAB Staff Office augmented the SAB CAAC with subject matter experts to provide advice through the chartered SAB regarding this IRIS assessment.

The SAB was established pursuant to 42 U.S.C. 4365 to provide independent scientific and technical advice to the Administrator on the technical basis for Agency positions and regulations. The SAB is a Federal Advisory Committee chartered under FACA. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

The SAB CAAC TMB Panel held a public meeting on June 17-June 19, 2014. The purpose of that meeting was to receive a briefing on the EPA's enhancements to the IRIS Program and develop responses to the peer review charge on the agency's draft IRIS *Toxicological Review of Trimethylbenzenes* (August 2013 Revised External Review Draft). The purpose of these public teleconferences is for the Panel to discuss its draft report peer reviewing the agency's draft toxicological review. The two public teleconferences will be conducted as one complete meeting, beginning on November 5, 2014 and continuing on November 7, 2014.

Procedures for Providing Public Input: Public comment for consideration by EPA's federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to EPA. Members of the public can submit relevant comments pertaining to the group conducting this SAB activity or meeting
