SUPPLEMENTARY INFORMATION:

OMB Control Number: 1010-0057.
Title: 30 CFR Part 550, Subpart C, Pollution Prevention and Control.
Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.*, and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior (Secretary) to prescribe rules and regulations to manage the mineral resources of the OCS. Such rules and regulations apply to all operations conducted under a lease, right-of-use and easement, and pipeline right-of-way. Operations on the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource

development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition.

Section 1332(6) states that "operations in the [O]uter Continental Shelf should be conducted in a safe manner by well-trained personnel using technology, precautions, and techniques sufficient to prevent or minimize . . . occurrences which may cause damage to the environment or to property, or endanger life or health." Section 1334(a)(8) requires that regulations prescribed by the Secretary include provisions "for compliance with the national ambient air quality standards [NAAQS] pursuant to the Clean Air Act (42 U.S.C. 7401 *et seq.*), to the extent that activities authorized under this Act significantly affect the air quality of any State." This information collection renewal concerns the regulations at 30 CFR Part 550, Subpart C, Pollution Prevention and Control. It also covers the related Notices to Lessees and Operators (NTLs) that BOEM issues to clarify and provide additional guidance on some aspects of the regulations. BOEM uses the information to ensure operations are conducted according to all applicable regulations and permit

conditions and in a manner that minimizes air pollution.
 We will protect information from respondents considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR part 2) and under regulations at 30 CFR 550.197, "Data and information to be made available to the public or for limited release." No items of a sensitive nature are collected. Responses are mandatory.

Frequency: On occasion, monthly, or annually.

Description of Respondents: Potential respondents comprise Federal OCS oil and gas or sulphur lessees and States.

Estimated Reporting and Recordkeeping Hour Burden: We estimate the burden for this collection to be about 112,111 hours. The following table details the individual components and respective hour burden estimates of this ICR. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden. This submission also removes the requirements and burdens that were transferred to the responsibility of the Bureau of Safety and Environmental Enforcement under Secretarial Order No. 3299, May 19, 2010.
