SUPPLEMENTS

I. Abstract

As part of the Maker Fair Initiative, a program entitled “National Teachers’ Summer Institute” is sponsored by USPTO. This program accepts applicants for a summer teaching workshop. The program receives applications from individuals, requesting to participate in the Institute, who certify that they are educators with at least 3 years’ experience. These applicants are also required to: 1) Have taught in STEM related fields last year, 2) plan to teach in a STEM related field this upcoming year, and 3) to acknowledge their commitment to incorporate the learnings from the Teacher Summer Institute into their curriculum, where applicable, and cooperate with sharing lessons and outcomes with teachers and PTO. This information would come in the form of both applications and surveys.

The USPTO seeks to get committed educators in science fields to learn about innovative strategies to help increase student learning and achievement in these fields and elements of invention and IP. This institute will showcase a collaborative project of the USPTO and the National Science Foundation including an 11 part video series produced by NBC learn with specifically designed lesson plans. The agenda would include scientists, inventors, and fields trips (i.e., to NASA) as well as networking. The USPTO may host various webinars in conjunction with the Summer Institute. USPTO plans to conduct surveys of both the Institute and the webinars in order to gain useful feedback from program participants.

II. Method of Collection

Applications and corresponding surveys will be submitted electronically through the www.uspto.gov/education Web site.
