RIN 2126–AB77

Amendment to Emergency Relief Exemptions Pursuant to the Reliable Home Heating (RHH) Act

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Final rule.

SUMMARY: FMCSA adopts, as final, certain amendments to the Federal Motor Carrier Safety Regulations (FMCSRs) required by the Reliable Home Heating (RHH) Act. Currently, the FMCSRs include a provision which enables motor carriers providing direct assistance in responding to an emergency declared by a governor to do so without having to comply with certain Federal safety regulations. However, the duration of the relief is limited to 30 days unless FMCSA extends the exemption. This final rule amends the emergency relief provision in the FMCSRs so that the safety requirements in 49 CFR parts 390–399 will not apply if a Governor: Declares a state of emergency caused by a shortage of residential heating fuel; determines at the end of the 30-day exemption period currently authorized by the regulations that the emergency shortage has not ended; and extends the declaration of emergency for up to 2 additional 30-day periods. Because the rule is a non-discretionary, ministerial action as required by the RHH Act, it is issued without prior notice and opportunity for comment, pursuant to the good cause exception in the Administrative Procedure Act (APA).

DATES: Effective October 22, 2014.

SUPPLEMENTARY INFORMATION:**Executive Summary***Purpose and Summary of the Major Provisions*

This rule makes nondiscretionary ministerial changes to FMCSA’s emergency relief regulations in 49 Code of Federal Regulations (CFR) 390.23. The changes are required by Section 2(c) of the RHH Act, Public Law 113–125, 128 Stat. 1388, June 30, 2014. When shortages of residential heating fuel occur, the RHH amendments extend the normal 30-day exemption period for up to 90 days, provided that the Governor of the affected State determines that a second or third 30-day period must be allowed to enable motor carriers to provide residential heating fuel expeditiously.

Benefits and Costs

The rule provisions considered both individually and in the aggregate do not rise to the level of economic significance.

Legal Basis for the Rulemaking

This rule is required by Section 2(c) of the Reliable Home Heating (RHH) Act, Public Law 113–125, 128 Stat. 1388, June 30, 2014.

Section 390.23(a) of title 49, CFR, provides that 49 CFR parts 390–399 of the FMCSRs shall not apply to any motor carrier or driver operating a commercial motor vehicle (CMV) to provide emergency relief during an emergency declared by certain Federal or State officials, including a Governor, subject to certain time limits. Section 390.23(a)(1)(ii) limits a regional emergency (which would include a State-wide emergency) to a maximum of 30 days from the date of the initial declaration of the emergency.

Section 2(b) of the RHH Act provides that, if a Governor (1) declares a state of emergency caused by a shortage of residential heating fuel,¹ (2) determines

¹ Although the Act states that residential heating fuel “includes” heating oil, natural gas, and propane, FMCSA believes that list was intended to be exclusive, despite the use of the vague term “includes.” The rules of statutory interpretation

at the end of the 30-day exemption period authorized by section 390.23(a)(1)(ii) that the emergency shortage has not ended, and (3) extends the declaration of emergency for up to 2 additional 30-day periods, FMCSA shall not apply parts 390–399 of the FMCSRs to a motor carrier or driver operating a CMV to provide residential heating fuel in the geographic area designated by the emergency declaration for those 2 additional periods.

Section 2(c) of the RHH Act requires FMCSA to amend section 390.23(a)(1)(ii) to conform to the provisions of section 2(b). This rule adopts the required conforming amendment.

Because the RHH Act leaves FMCSA no discretion in the promulgation of this amendment, the Agency finds good cause under the APA [5 U.S.C. 553(b)] to publish this final rule without prior notice and opportunity for comment. Comments are unnecessary since they could not change the amendment required by the RHH Act. For the same reason, FMCSA finds good cause to make this rule effective upon publication in the **Federal Register**, as authorized by 5 U.S.C. 553(d)(3).

Rulemaking Analyses and Notices

Executive Order 12866 (Regulatory Planning and Review and DOT Regulatory Policies and Procedures as Supplemented by E.O. 13563)

FMCSA has determined this final rule is not a significant regulatory action within the meaning of Executive Order (E.O.) 12866, as supplemented by E.O. 13563 (76 FR 3821, January 21, 2011), and is also not significant within the meaning of DOT regulatory policies and procedures (44 FR 11034, February 26, 1979). As explained above, this final rule promulgates nondiscretionary statutory requirements. The cost of these changes will not exceed the \$100 million annual threshold. Any costs associated with this action are attributable to the non-discretionary statutory provisions. This final rule is not expected to generate substantial congressional or public interest. Therefore, a regulatory impact analysis has not been conducted nor has there been a review by the Office of Management and Budget (OMB).

Regulatory Flexibility Act

Pursuant to the Regulatory Flexibility Act (RFA) of 1980 (5 U.S.C. 601 *et seq.*),

generally treat a list of specific items as evidence of legislative intent to exclude other items [*expressio unius est exclusio alterius*]. Section 390.23(a)(1)(ii) has been amended accordingly.

as amended by the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121, 110 Stat. 857), FMCSA is not required to prepare a regulatory flexibility analysis under 5 U.S.C. 604(a) for this final rule because the Agency has not issued a notice of proposed rulemaking prior to this action.

Assistance for Small Entities

In accordance with section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996, FMCSA wants to assist small entities in understanding this rule so that they can better evaluate its effects on themselves and participate in the rulemaking initiative. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please consult the FMCSA point of contact, Thomas Yager, listed in the **FOR FURTHER INFORMATION CONTACT** section of this rule.

Small businesses may send comments on the actions of Federal employees who enforce or otherwise determine compliance with Federal regulations to the SBA's Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of FMCSA, call 1–888–REG–FAIR (1–888–734–3247). DOT has a policy ensuring the rights of small entities to regulatory enforcement fairness and an explicit policy against retaliation for exercising these rights.

Unfunded Mandates Reform Act of 1995

This final rule will not impose an unfunded Federal mandate, as defined by the Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1532 *et seq.*), that will result in the expenditure by a State, local, or tribal governments, in the aggregate, or by the private sector of \$151 million (which is the value of \$100 million in 2013 after adjusting for inflation) or more in any one year.

E.O. 13132 (Federalism)

A rule has implications for Federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. This action has been analyzed in accordance with E.O. 13132. FMCSA has determined that this rule would not have a substantial

direct effect on States, nor would it limit the policymaking discretion of States. Nothing in this document preempts any State law or regulation.

E.O. 12988 (Civil Justice Reform)

This final rule meets applicable standards in sections 3(a) and 3(b)(2) of E.O. 12988 to minimize litigation, eliminate ambiguity, and reduce burden.

E.O. 13045 (Protection of Children)

E.O. 13045, Protection of Children from Environmental Health Risks and Safety Risks (62 FR 19885, Apr. 23, 1997), requires agencies issuing “economically significant” rules, if the regulation also concerns an environmental health or safety risk that an agency has reason to believe may disproportionately affect children, to include an evaluation of the regulation’s environmental health and safety effects on children. The Agency determined this final rule is not economically significant. Therefore, no analysis of the impacts on children is required. In any event, the Agency does not believe that this action could create an environmental or safety risk that would disproportionately affect children.

E.O. 12630 (Taking of Private Property)

FMCSA reviewed this final rule in accordance with E.O. 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights, and has determined it will not effect a taking of private property or otherwise have takings implications.

Privacy Impact Assessment

Section 522 of title I of division H of the Consolidated Appropriations Act, 2005, enacted December 8, 2004 (Pub. L. 108–447, 118 Stat. 2809, 3268, 5 U.S.C. 552a note), requires the Agency to conduct a privacy impact assessment (PIA) of a regulation that will affect the privacy of individuals. This rule does not require the collection of personally identifiable information (PII).

The Privacy Act (5 U.S.C. 552a) applies only to Federal agencies and any non-Federal agency which receives records contained in a system of records from a Federal agency for use in a matching program. That provision is not applicable to this rule.

E.O. 12372 (Intergovernmental Review)

The regulations implementing E.O. 12372 regarding intergovernmental consultation on Federal programs and activities do not apply to this program.

Paperwork Reduction Act

Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501, *et seq.*), Federal agencies must obtain approval from the OMB for each collection of information they conduct, sponsor, or require through regulations. This rule requires no information collection.

National Environmental Policy Act and Clean Air Act

FMCSA analyzed this rule in accordance with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321, *et seq.*) and FMCSA's *NEPA Implementing Procedures and Policy for Considering Environmental Impacts*, Order 5610.1 (FMCSA Order), March 1, 2004 (69 FR 9680). FMCSA's Order states that "[w]here FMCSA has no discretion to withhold or condition an action if the action is taken in accordance with specific statutory criteria and FMCSA lacks control and responsibility over the effects of an action, that action is not subject to this Order." *Id.* at chapter 1(D). Because the RHH Act requires the action taken here, FMCSA has no jurisdiction or control over, or responsibility for, the effects of this action, and the rulemaking falls under chapter 1(D). Therefore, no further analysis is considered.

In addition to the NEPA requirements to examine impacts on air quality, the Clean Air Act (CAA) as amended (42 U.S.C. 7401, *et seq.*) also requires FMCSA to analyze the potential impact of its actions on air quality and to ensure that FMCSA actions conform to State and local air quality implementation plans. This non-discretionary action is expected to fall within the CAA *de minimis* standards and is not subject to the Environmental Protection Agency's General Conformity Rule (40 CFR parts 51 and 93).

Additionally, FMCSA evaluated the effects of this final rule in accordance with Executive Order 12898 and determined that there are no environmental justice issues associated with its provisions nor any collective environmental impacts resulting from its promulgation. Environmental justice issues would be raised if there were a "disproportionate" and "high and adverse impact" on minority or low-income populations. This final rule is exempt from analysis under the National Environmental Policy Act. This final rule simply makes ministerial, mandatory changes and would not result in high and adverse environmental impacts.

E.O. 13211 (Energy Supply, Distribution, or Use)

FMCSA analyzed this action under E.O. 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. FMCSA determined that it is not a "significant energy action" under that E.O. because it is not economically significant and is not likely to have an adverse effect on the supply, distribution, or use of energy.

E.O. 13175 (Indian Tribal Governments)

This final rule does not have tribal implications under E.O. 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

National Technology Transfer and Advancement Act (Technical Standards)

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through OMB, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards (*e.g.*, specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) are standards that are developed or adopted by voluntary consensus standards bodies. This final rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.
