

and the public to ensure the full range of issues related to the Project are addressed, reasonable alternatives are considered, and significant issues are identified. In particular, FRA is interested in identifying areas of environmental concern where there might be a potential for significant impacts. Public agencies with jurisdiction are requested to advise FRA and DRPT of the applicable permit and environmental review requirements of each agency, and the scope and content of the environmental information that is germane to the agency's statutory responsibilities in connection with the proposed Project. Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State, and local agencies in Virginia. Public agencies are requested to advise FRA if they anticipate taking a major action in connection with the proposed Project and if they wish to cooperate in the preparation of the EIS.

Public scoping opportunities and meetings will be scheduled as described below and are an important component of the scoping process for Federal environmental review. FRA is seeking participation and input of interested Federal, State, and local agencies, Native American groups, and other concerned private organizations and individuals on the scope of the EIS. A continual public involvement/information program will support the process. The program will involve newsletters, a project hotline, informational workshops, small group meetings, social media, and other methods to solicit and incorporate public input throughout the EIS process. Comments and questions concerning the proposed action should be directed to DRPT or to FRA at the addresses provided above. Additional information can be obtained by visiting the project Web site at www.DC2RVArail.com or

calling the toll-free project number 1-888-832-0900.
