[Docket No. AD14-18-000]

Joint Technical Conference on New York Markets & Infrastructure; Supplemental Notice of Technical Conference

As announced in the Notice issued on September 17, 2014,¹ the Federal Energy Regulatory Commission (Commission), jointly with the New York Public Service Commission will hold a technical conference on November 5, 2014 from 9:00 a.m. to approximately 4:00 p.m., to discuss issues of mutual interest and concern regarding the installed capacity market and energy infrastructure in New York and review the role of New York's centralized capacity market in attracting investment and ensuring resource adequacy and reliability. The conference will be held in the New York Institute of Technology Auditorium located at 1871 Broadway, between 61st and 62nd Streets, New York, NY 10023. A preliminary agenda for this conference is attached.

Conference panelists will be identified in a subsequent notice. This conference is free of charge and open to the public.

The technical conference will be transcribed. The conference will also be Webcast. The Webcast will allow persons to listen to the technical conference, but not participate. Further details on the Webcast, including the link, will be provided in a subsequent notice.

Information on the technical conference will be posted on the Web site <http://www.ferc.gov/EventCalendar/EventDetails.aspx?ID=7531&CalType=%20&CalendarID=116&Date=11/05/2014&View=Listview>, as well as the Calendar of Events on the Commission's Web site, <http://www.ferc.gov>, prior to the conference.

Commission conferences are accessible under section 508 of the Rehabilitation Act of 1973. For

accessibility accommodations, please send an email to accessibility@ferc.gov or call toll free 1-866-208-3372 (voice) or 202-502-8659 (TTY), or send a FAX to 202-208-2106 with the required accommodations.

For more information about the technical conference, please contact:

Kathleen Schnorf (Technical Information), Office of Energy Market Regulation, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, (202) 502-8547, Kathleen.Schnorf@ferc.gov.

Betty Watson (Technical Information), Office of Energy Policy and Innovation, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, (202) 502-8552, Betty.Watson@ferc.gov.

Kate Hoke (Legal Information), Office of General Counsel, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, (202) 502-8404, Katheryn.Hoke@ferc.gov.

Sarah McKinley (Logistical Information), Office of External Affairs, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, (202) 502-8004, Sarah.McKinley@ferc.gov.

Dated: October 10, 2014.

Secretary.

Joint FERC-NYPSC Technical Conference on New York Markets & Infrastructure

Docket No. AD14-18-000

November 5, 2014

Preliminary Agenda

8:00 a.m.–9:00 a.m. Registration

9:00 a.m.–9:30 a.m. Opening remarks by Commissioners

9:30 a.m.–10:15 a.m. NYISO and Independent Market Monitor presentation

NYISO and the Independent Market Monitor will report on the recent performance of NYISO's capacity market. NYISO will also describe current initiatives it is undertaking, and hurdles it is facing, as it seeks to improve performance of its capacity market to attract adequate investment in resources and infrastructure to efficiently meet New York State's reliability/resource adequacy needs. NYISO will provide information on recent investments made in resources and infrastructure through NYISO's markets and transmission planning efforts, and discuss the implementation of the new capacity zone in the Lower Hudson Valley. NYISO will provide a

brief update on preparedness for the upcoming winter. Finally, the Independent Market Monitor will provide its recommendations for improved performance of NYISO's capacity market.

10:15 a.m.–12:15 p.m. Panel One:

Assessing the performance of NYISO's capacity market design in attracting investment in resources and infrastructure to meet reliability/resource adequacy needs

This session will discuss the role of NYISO's capacity market in attracting investment in both resources and infrastructure in order to meet New York State's reliability and/or resource adequacy needs. In particular, panelists should discuss the particular capacity market design features that encourage merchant investment in resources and infrastructure. Panelists will be asked to discuss how the capacity market is addressing local and state-wide resource adequacy and reliability issues at just and reasonable rates. Finally, panelists should discuss what changes, if any, should be considered going forward to improve the performance of NYISO's capacity market.

Panelists should be prepared to discuss the following questions:

a. How do particular market design features impact infrastructure investment decisions by merchant entities? How can these market design aspects best address the interests of both buyers and sellers? How do buyer-side mitigation measures affect investment? Should the NYISO capacity market provide a longer revenue certainty period (e.g., 3, 5, or 10 years)? Does the existing NYISO capacity market appropriately incent investment as compared with three-year forward market designs in other capacity markets (e.g., PJM, ISO-NE)? Are long-term bilateral contracts a feasible alternative procurement mechanism for New York (e.g., California model)?

b. Are changes to NYISO's capacity market necessary to better ensure resource performance during peak demand conditions (summer or winter)?

c. Why are Reliability Support Services (RSS) needed? What is the effect of RSS agreements on the ability of the NYISO capacity market to efficiently meet the intended goal of incentivizing investment in resources and infrastructure? Are there other market and infrastructure impacts of the use of RSS agreements?

d. How does NYISO coordinate its planning processes and its capacity market? Are there possible improvements in the coordination efforts?

¹Joint Technical Conference on New York Markets & Infrastructure, Docket No. AD14-00018-000 (September 17, 2014).

e. How is the planning of transmission, generation and other resources coordinated between retail and wholesale markets?

12:15 p.m.–1:00 p.m. Lunch Break
1:00 p.m.–3:00 p.m. Panel Two: Role of NYISO's capacity market in attracting investment in resources and infrastructure needed to meet public policy objectives

This session will focus on whether, and to what extent, NYISO's capacity market should play a role in attracting investment in resources and infrastructure to meet public policy objectives. There may be a range of public policy objectives, including increasing renewable resources; maintaining or increasing clean energy resources to meet emission reduction goals; increasing distributed resources; increasing energy efficiency and demand response resources; maintaining fuel diversity; maintaining price stability for customers (wholesale, retail, commercial and industrial); economic development; and spurring investment in resources and infrastructure (both power lines and gas pipelines). Panelists should address whether these objectives are appropriately addressed through the NYISO capacity market. If so, this session will also include a discussion of whether certain aspects of the current NYISO capacity market design—in particular the capacity market product definition—need to change to achieve the requisite public policy objectives. The discussion may also explore whether some of these objectives are complementary or in conflict with other objectives.

Panelists should be prepared to discuss the following questions:

a. Are changes to the capacity market needed to account for fuel availability/firmness of fuel, or to differentiate the value of capacity resources based on the “firmness” of fuel arrangements?

b. Should the capacity market specifically account for or otherwise value resources that are intended to meet current or future public policy goals (e.g., fuel diversity or emission reduction goals)? How should there be modifications to the buyer-side mitigation rules to help achieve those goals?

c. What price signals and tariff changes may be needed to achieve the objectives under discussion in the PSC's Reforming the Energy Vision (REV) proceeding?

d. Are there market, environmental, or other barriers to entry in certain locations or for certain kinds of resources (e.g., repowering assets in New York City)?

e. Are there broader market design features outside of the capacity market (e.g., scarcity and shortage pricing) that could be adjusted to account for public policy objectives (e.g., increasing renewables)?

3:00 p.m.–3:15 p.m. Break
3:15 p.m.–4:00 p.m. Roundtable discussion among Commissioners/ Wrap up

Discussion of possible paths forward for identified issues and solutions.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket. No. AD14–14–000]

Price Formation in Energy and Ancillary Services, Markets Operated by Regional Transmission, Organizations and Independent System Operators: Supplemental Notice of Workshop on Price Formation: Scarcity and Shortage Pricing, Offer Mitigation, and Offer Caps in RTO and ISO Markets

As announced in a Notice issued on September 5, 2014, the Federal Energy Regulatory Commission (Commission) will hold a workshop on Tuesday, October 28, 2014 to commence a discussion with industry on scarcity and shortage pricing, offer mitigation, and offer caps in energy and ancillary service markets operated by the Regional Transmission Organizations and Independent System Operators (RTOs/ISOs). The workshop will commence at 8:45 a.m. and conclude at 5 p.m. and will be held at the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. This workshop is free of charge and open to the public. Commission members may participate in the workshop.

The agenda and a list of participants for this workshop are attached. Those who plan to attend the workshop are encouraged to complete the registration form located at <https://www.ferc.gov/whats-new/registration/10-28-14-form.aspx>. There is no registration deadline.

The workshop will be transcribed. Transcripts of the workshop will be available for a fee from Ace-Federal Reporters, Inc. (202–347–3700 or 1–800–336–6646). Additionally, there will be a free webcast of the workshop. The webcast will allow persons to listen to the workshop but not participate.

Anyone with Internet access who wants to listen to the workshop can do so by navigating to the Calendar of Events at www.ferc.gov, locating the technical workshop in the Calendar, and clicking on the webcast link. The Capitol Connection provides technical support for the webcast and offers the option of listening to the meeting via phone-bridge for a fee. If you have any questions, visit www.CapitolConnection.org or call 703–993–3100.

While this workshop is not for the purpose of discussing specific cases, the workshop may address matters at issue in the following Commission proceedings that are pending: *Astoria Generating Company L.P. v. New York Independent System Operator, Inc.*, Docket Nos. EL11–42 and EL11–50; *California Independent System Operator Corporation*, Docket No. ER14–1386 and ER14–2484; *Hudson Transmission Partners, LLC v. New York Independent System Operator, Inc.*, Docket No. EL12–98; *Independent Power Producers of New York, Inc. v. New York Independent System Operator, Inc.*, Docket No. EL13–62; *ISO New England, Inc. and New England Power Pool*, Docket Nos. EL14–52, ER 14–1050, ER14–2419, and ER14–2929; *Midcontinent Independent System Operator, Inc.*, Docket Nos. ER14–2156, and ER11–4081; *PJM Interconnection, L.L.C.*, Docket Nos. ER14–1144 and ER14–1145; *New York Independent System Operator, Inc.*, Docket No. EL07–39; *Old Dominion Electric Cooperative*, Docket No. ER14–2242; *Seneca Power Partners, L.P. v. New York Independent System Operator, Inc.*, Docket No. EL12–6; and *Southwest Power Pool, Inc.*, Docket No. ER15–21.

Commission workshops are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations please send an email to accessibility@ferc.gov or call toll free (866) 208–3372 (voice) or (202) 502–8659 (TTY), or send a fax to (202) 208–2106 with the requested accommodations.

For more information about the workshop, please contact:
