The first page of any filing should include docket number P-2101-096.

k. *Description of Request:* The applicant proposes to construct a new powerhouse located approximately 1,320 feet downstream of the existing Slab Creek dam on the South Fork American River. The powerhouse would be used to supplement required minimum flows and contain a single turbine/generator unit with an installed capacity of 2.7 megawatts and a hydraulic capacity of 156 cubic feet per second. The applicant also proposes to construct a new 400-foot-long, 8-foot-diameter steel penstock through the existing White Rock Tunnel Adit No. 3 to feed the new powerhouse with flows from the existing White Rock power tunnel. The applicant also proposes to install a new boating flow release valve immediately downstream of the new powerhouse and connected to the new penstock.

l. *Locations of the Application:* A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street NE., Room 2A, Washington, DC 20426, or by calling (202) 502-8371. This filing may also be viewed on the Commission's Web site at <http://www.ferc.gov/docs-filing/efiling.asp>. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, call 1-866-208-3676 or email *FERCOnlineSupport@ferc.gov*, for TTY, call (202) 502-8659. A copy is also available for inspection and reproduction at the address in item (h) above.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. *Comments, Protests, or Motions To Intervene:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a

party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. *Filing and Service of Responsive Documents:* All filings must (1) bear in all capital letters the title "COMMENTS", "PROTEST", "MOTION TO INTERVENE", "TERMS AND CONDITIONS" or "FISHWAY PRESCRIPTIONS" as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene, or protests must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). All comments, motions to intervene, or protests should relate to project works which are the subject of the amendment. Agencies may obtain copies of the application directly from the applicant. A copy of any protest or motion to intervene must be served upon each representative of the applicant specified in the particular application. If an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency. A copy of all other filings in reference to this application must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b) and 385.2010.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP14-554-000; PF14-2-000]

Florida Southeast Connection, LLC: Notice of Application

Take notice that on September 26, 2014, Florida Southeast Connection, LLC (FSC), 700 Universe Boulevard, Juno Beach, FL 33408, filed an application under section 7(c) of the Natural Gas Act and Parts 157 and 284

of the Commission's regulations requesting authorization to construct, own and operate a new natural gas pipeline system (FSC Project) consisting of approximately 126 miles of pipe, associated valves, piping, and appurtenant facilities, commencing at an interconnection with the proposed Sabal Trail Transmission, LLC (Sabal Trail) pipeline near Intercession City, Florida, and terminating at a delivery point at the Florida Power & Light Company (FPL) Martin Clean Energy Center (Martin), near Indiantown, Florida. FSC will have an initial transportation capacity of 640,000 dekatherms per day.

In addition, FSC requests that the Commission issue to FSC a blanket certificate authorizing FSC to construct, operate, and abandon certain facilities under Part 157, Subpart F of the Commission's regulations, a blanket certificate authorizing FSC to transport natural gas, on an open access and self-implementing basis, under Part 284, Subpart G of the Commission's regulations, and authorizations necessary to charge initial recourse rates for certain services to be rendered by FSC, all as more fully set forth in the application which is on file with the Commission and open for public inspection. The filing may also be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC at *FERCOnlineSupport@ferc.gov* or toll free at (866) 208-3676, or TTY, (202) 502-8659.

Any questions regarding the proposed project should be directed to Robert E. Sharra, Director Business Development, Florida Southeast Connection, LLC, 700 Universe Boulevard, Juno Beach, Florida 33408, or by calling (561) 691-7274 (telephone) or (561) 304-5233 (fax) or email at robert.sharra@nee.com.

On October 16, 2013, the Commission staff granted FSC's request to utilize the National Environmental Policy Act (NEPA) Pre-Filing Process and assigned Docket No. PF14-2-000 to staff activities involving the project. Now, as of the filing of this application on September 26, 2014, the NEPA Pre-Filing Process for this project has ended. From this time forward, this proceeding will be conducted in Docket No. CP14-554-000, as noted in the caption of this Notice.

Because the environmental review of the FSC Project must also include both Sabal Trail (currently in the NEPA Pre-Filing Process under Docket No. PF14-1-000) and Transcontinental Gas Pipe

Line Company LLC's Hillabee Expansion Project (currently in the NEPA Pre-Filing Process under Docket No. PF14-6-000), the Commission cannot begin preparation of the Environmental Impact Statement (EIS) to comply with the NEPA of 1969, until after both remaining applications are filed. Within 90 days after the Commission issues a Notice of Application for the final received application, the Commission staff will issue a Notice of Schedule for Environmental Review that will indicate the anticipated date for the Commission's staff issuance of the final EIS analyzing all three proposals. The issuance of a Notice of Schedule for Environmental Review will also serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's final EIS.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to

the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.
