SUPPLEMENTARY INFORMATION:

Background: On February 23, 2012, the White House released *Consumer Data Privacy in a Networked World: A Framework for Protecting Privacy and Promoting Innovation in the Global Digital Economy* (the "Privacy Blueprint").¹ The Privacy Blueprint

directs NTIA to convene multistakeholder processes to develop legally enforceable codes of conduct that specify how the Consumer Privacy Bill of Rights applies in specific business contexts.² On December 3, 2013, NTIA announced that it would convene a multistakeholder process with the goal of developing a code of conduct to protect consumers' privacy and promote trust regarding facial recognition technology in the commercial context.³ On February 6, 2014, NTIA convened the first meeting of the multistakeholder process, followed by additional meetings through July 2014.

Matters To Be Considered: The November 6, 2014 and December 15, 2014 meetings are continuations of a series of NTIA-convened multistakeholder discussions concerning facial recognition technology. Stakeholders will engage in an open, transparent, consensus-driven process to develop a code of conduct regarding facial recognition technology. The November 6, 2014 and December 15, 2014 meetings will build on stakeholders' previous work. More information about stakeholders' work is available at: <http://www.ntia.doc.gov/other-publication/2014/privacy-multistakeholder-process-facial-recognition-technology>.

The meeting dates and times are subject to change. The meetings are subject to cancellation if stakeholders complete their work developing a code of conduct.
