DEPARTMENT OF AGRICULTURE

Agricultural Research Service

Notice of Intent To Request an Extension of a Currently Approved Information Collection

AGENCY: Agricultural Research Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Agricultural Research Service's (ARS) intention to request an extension of a currently approved information collection, Form AD-761, USDA Patent License Application for Government Invention that expires April 30, 2015.

DATES: Comments must be received on or before December 29, 2014.

ADDRESSES: Comments may be sent to Mojdeh Bahar, USDA, ARS, Office of Technology Transfer, 5601 Sunnyside Avenue, Room 4-1174, Beltsville, Maryland 20705-5131; Telephone Number 301-504-5989.

FOR FURTHER INFORMATION CONTACT: Mojdeh Bahar, USDA, ARS, Office of Technology Transfer, 301-504-5989.

SUPPLEMENTARY INFORMATION:

Title: USDA Patent License Application for Government Invention.

OMB Number: 0518-0003.

Expiration Date of Approval: April 30, 2015.

Type of Request: To extend a currently approved information collection.

Abstract: The USDA patent licensing program grants patent licenses to qualified businesses and individuals who wish to commercialize inventions arising from federally supported research. The objective of the program is to use the patent system to promote the utilization of inventions arising from such research. The licensing of federally owned inventions must be done in

accordance with the terms, conditions and procedures prescribed under 37 CFR part 404. Application for a license must be addressed to the Federal agency having custody of the invention. Licenses may be granted only if the license applicant has supplied the Federal agency with a satisfactory plan for the development and marketing of the invention and with information about the applicant's capability to fulfill the plan. 37 CFR 404.8 sets forth the information which must be provided by a license applicant. For the convenience of the applicant, USDA has itemized the information needed on Form AD-761, and instructions for completing the form are provided to the applicant. The information submitted is used to determine whether the applicant has both a complete and sufficient plan for developing and marketing the invention and the necessary manufacturing, marketing, technical and financial resources to carry out the submitted plan.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 3 hours per response.

Description of Respondents: Businesses or other for profit individuals.

Estimated Number of Respondents: 75.

Frequency of Responses: One time per invention.

Estimated Total Annual Burden on Respondents: 225 hours.

This data will be collected under the authority of 44 U.S.C. #3506(c)(2)(A).

Copies of this information collection and related instructions can be obtained without charge from Mojdeh Bahar, USDA, ARS, Office of Technology Transfer by calling 301-504-5989.

Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, such as through the use of appropriate

automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses. Comments may be sent to USDA, ARS, Office of Technology Transfer, 5601 Sunnyside Avenue, Room 4-1174, Beltsville, Maryland 20705-5131. All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Mojdeh Bahar,

Assistant Administrator.

SUPPLEMENTARY INFORMATION:

Title: Importation of Longan From Taiwan.

OMB Control Number: 0579-0351.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. Regulations authorized by the PPA concerning the importation of fruits and vegetables into the United States from certain parts of the world are contained in "Subpart—Fruits and Vegetables" (7 CFR 319.56-1 through 319.56-71).

Under these regulations, longan from Taiwan are subject to certain conditions before entering the United States to ensure that exotic plant pests are not introduced into the United States. The regulations require the use of cold treatment and special port-of-arrival inspection procedures for certain quarantine pests. In addition, the fruit must be accompanied by a phytosanitary certificate stating that the fruit was inspected and found to be free of certain pests, and the individual cartons or boxes in which the longan are shipped must be stamped or printed with a statement prohibiting their importation into or distribution within the State of Florida.

Since the last extension of approval for these information collection activities, we realized that we counted the estimated annual number of responses per respondent under the estimated annual number of respondents. We have corrected both estimates in this document.

We are asking the Office of Management and Budget (OMB) to

approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.0018 hours per response.

Respondents: National plant protection organization of Taiwan and importers of longan.

Estimated annual number of respondents: 2.

Estimated annual number of responses per respondent: 6,009.

Estimated annual number of responses: 12,018.

Estimated total annual burden on respondents: 22 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 24th day of October 2014.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.
