Records Governing Off-the-Record Communications; Public Notice

This constitutes notice, in accordance with 18 CFR 385.2201(b), of the receipt of prohibited and exempt off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive a prohibited or exempt off-the-record communication relevant to the merits of a contested proceeding, to deliver to the Secretary of the Commission, a copy of the communication, if written, or a summary of the substance of any oral communication.

Prohibited communications are included in a public, non-decisional file associated with, but not a part of, the decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any responses thereto should become a part of the decisional record, the prohibited off-the-record communication will not be considered by the Commission in reaching its decision. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record

communication, and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such a request only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication shall serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications are included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e) (1) (v).

The following is a list of off-the-record communications recently received by the Secretary of the Commission. The communications listed are grouped by docket numbers in ascending order. Abstract: Respondents are owners or operators of facilities performing polymeric coating of supporting substrates. NSPS Subpart VVV applies to each coating operation and any on-site mix preparation equipment used to prepare coating for the polymeric coating of supporting substrates, which commences construction, modification, or reconstruction after April 30, 1987. The rule establishes standards for VOC use, emission reduction limits, and capture and recovery of VOC emissions. The recordkeeping, monitoring, and reporting requirements allow the regulatory agencies to determine compliance with the standard.

Form Numbers: None.

Respondents/affected entities:

Owners or operators of facilities performing polymeric coating of supporting substrates.

Respondent’s obligation to respond: Mandatory (40 CFR part 60, Subpart VVV).

Estimated number of respondents: 59 (total).

Frequency of response: Initially, quarterly, and semiannually.

Total estimated burden: 13,667 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$1,995,496 (per year), includes \$657,500 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an adjustment increase in the total estimated burden, capital/startup, and O&M costs as currently identified in the

OMB Inventory of Approved Burdens. This increase is due to industry growth and is not due to any program changes.

There is an apparent decrease in the Agency labor burden hours due to a summation error in the most recently approved ICR. This error resulted in the overestimation of Agency burden. EPA has identified and reconciled this discrepancy during the preparation of this ICR renewal, hence the apparent burden decrease.

Courtney Kerwin,

Acting Director, Collection Strategies Division.
