

for nonprogram information requests. We reserve the right to review and update the published standard fees as necessary, but no less than every two years, to ensure the agency recovers the full cost of providing nonprogram-related services. Standard fees provide consistency and ensure we recover the full cost of supplying information when we receive a request for a purpose not directly related to the administration of a program under the Social Security Act (Act).

SUPPLEMENTARY INFORMATION: Section 1106 of the Act and the Privacy Act² authorize the Commissioner of Social Security to promulgate regulations regarding agency records and information and to charge fees for providing information and related services. Our regulations and operating instructions identify when we will charge fees for information.³ Whenever we determine a request for information is for any purpose not directly related to the administration of the Social Security programs, we require the requester to pay the full cost of providing the information.

New Information: Based on the most recent cost analysis, we determined the new standard fee for detailed yearly Social Security earnings information is \$136 for each request. We will certify the detailed earnings information for an additional \$56. Note: Certification is usually not necessary. We based this updated standard fee on our most recent cost calculations for supplying this information and the standard fee methodology previously published in the **Federal Register**. A requestor can obtain certified and non-certified detailed yearly Social Security earnings information by completing the Form SSA-7050 (Request for Social Security Earnings Information). A requestor can continue to obtain non-certified, yearly earnings totals (Form SSA-7004, Request for a Social Security Statement) through our free online service mySocialSecurity, <http://socialsecurity.gov/myaccount/>, a personal online account for Social Security information and services. Online Social Security Statements display uncertified yearly earnings, free of charge, and do not show any employer information. Certified yearly Social Security earnings totals cost \$56, available by completing Form SSA-7050.

We will continue to evaluate all standard fees at least every two years to ensure we capture the full costs

associated with providing information for nonprogram-related purposes. We will require nonrefundable advance payment of the standard fee by check, money order, or credit card. We will not accept cash. If we revise any of the standard fees, we will publish another notice in the **Federal Register**. For other nonprogram-related requests for information not addressed here or within the current schedule of standardized administrative fees, we will continue to charge fees calculated on a case-by-case basis to recover our full cost of supplying the information.

SUMMARY: Pursuant to section 1377 of the Omnibus Trade and Competitiveness Act of 1988 (19 U.S.C. 3106) ('Section 1377'), the Office of the United States Trade Representative ('USTR') is reviewing and requests comments on the operation, effectiveness, and implementation of, and compliance with the following agreements regarding telecommunications products and services of the United States: The World Trade Organization ('WTO') General Agreement on Trade in Services; The North American Free Trade Agreement ('NAFTA'); U.S. free trade agreements ('FTAs') with Australia, Bahrain, Chile, Colombia, Korea, Morocco, Oman, Panama, Peru, and Singapore; the Dominican Republic-Central America-United States Free Trade Agreement ('CAFTA-DR'); and any other telecommunications trade agreements, such as Mutual Recognition Agreements (MRAs) for Conformity Assessment of Telecommunications Equipment. The USTR will conclude the review by March 31, 2015.

DATES: Comments are due on December 5, 2014 and reply comments on December 19, 2014.

submissions electronically rather than by facsimile or mail.

FOR FURTHER INFORMATION CONTACT: Jonathan McHale, Office of Services and Investment, (202) 395-9533; or Ashley Miller, Office of Market Access and Industrial Competitiveness, (202) 395-9476.

SUPPLEMENTARY INFORMATION: Section 1377 requires the USTR to review annually the operation and effectiveness of all U.S. trade agreements regarding telecommunications products and services that are in force with respect to the United States. The purpose of the review is to determine whether any act, policy, or practice of a country that has entered into a trade agreement or other telecommunications trade agreement with the United States is inconsistent with the terms of such agreement or otherwise denies U.S. firms, within the context of the terms of such agreements, mutually advantageous market opportunities for telecommunications products and services. For the current review, the USTR seeks comments on:

(1) Whether any WTO member is acting in a manner that is inconsistent with its obligations under WTO agreements affecting market opportunities for telecommunications products or services, *e.g.*, the WTO General Agreement on Trade in Services (“GATS”), including the Agreement on Basic Telecommunications Services, the Annex on Telecommunications, and any scheduled commitments including the Reference Paper on Pro-Competitive Regulatory Principles; the WTO Agreement on Subsidies and Countervailing Measures; the WTO Agreement on Trade-Related Aspects of Intellectual Property Rights; or the plurilateral WTO Agreement on Government Procurement.

(2) Whether Canada or Mexico has failed to comply with its telecommunications obligations under the NAFTA;

(3) Whether Costa Rica, the Dominican Republic, El Salvador, Guatemala, Honduras or Nicaragua has failed to comply with its telecommunications obligations under the CAFTA-DR;

(4) Whether Australia, Bahrain, Chile, Colombia, Korea, Morocco, Oman, Panama, Peru, or Singapore has failed to comply with its telecommunications obligations under its FTA with the United States (see <http://www.ustr.gov/trade-agreements/free-trade-agreements> for links to U.S. FTAs);

(5) Whether any country has failed to comply with its obligations under telecommunications trade agreements with the United States other than FTAs,

e.g., Mutual Recognition Agreements (MRAs) for Conformity Assessment of Telecommunications Equipment (see <http://ts.nist.gov/standards/conformity/mra/mra.cfm> for links to certain U.S. telecommunications MRAs);

(6) Whether any act, policy, or practice of a country cited in a previous section 1377 review remains unresolved (see <http://www.ustr.gov/trade-topics/services-investment/telecom-ecommerce/section-1377-review> for recent reviews); and

(7) Whether any measures or practices of a country that is a WTO member or for which an FTA or telecommunications trade agreement has entered into force with respect to the United States impede access to its telecommunications markets or otherwise deny market opportunities to telecommunications products and services of United States firms. Measures or practices of interest include, for example, efforts by a foreign government or a telecommunications service provider to block services delivered over the Internet (including, but not limited to voice over Internet protocol services, social networking, and search services); requirements for access to or use of networks that limit the products or services U.S. suppliers can offer in specific foreign markets; the imposition of excessively high licensing fees; unreasonable wholesale roaming rates that mobile telecommunications service suppliers in specific foreign markets charge U.S. suppliers that seek to supply international mobile roaming services to their U.S. customers; allocating access to spectrum or other scarce resources through discriminatory procedures or contingent on the purchase of locally-produced equipment; subsidies provided to equipment manufacturers which are contingent upon exporting or local content, or have caused adverse effects to domestic equipment manufacturers and the imposition by foreign governments of unnecessary or discriminatory technical regulations or standards for telecommunications products or services. In all cases, commenters should provide any available documentary evidence, including relevant legal measures where available, translated into English where necessary, to facilitate evaluation.

The top and bottom of each page of the non-confidential version must be marked either "PUBLIC VERSION" or "NON-CONFIDENTIAL".

AGENCY: Federal Highway Administration (FHWA), Department of Transportation (DOT).

ACTION: Notice.

SUMMARY: The FHWA is issuing this notice of omission to advise the public that 10 comments submitted by email during the comment period for the South Mountain Freeway (Loop 202) Interstate 10 (Papago Freeway) to Interstate 10 (Maricopa Freeway) Draft Environmental Impact Statement and Section 4(f) Evaluation were inadvertently omitted from the South Mountain Freeway (Loop 202) Interstate 10 (Papago Freeway) to Interstate 10 (Maricopa Freeway) Final Environmental Impact Statement and Section 4(f) Evaluation.

FOR FURTHER INFORMATION CONTACT:

Alan Hansen, Federal Highway Administration, 4000 North Central Avenue, Suite 1500, Phoenix, AZ 85012; (602) 382-8964.

SUPPLEMENTARY INFORMATION: On September 26, 2014, at 79 FR 57929, FHWA published a notice of availability for its Final Environmental Impact Statement (FEIS) and Section 4(f) Evaluation for the South Mountain Freeway (Loop 202) Interstate 10 (Papago Freeway) to Interstate 10 (Maricopa Freeway) project. On October 21, 2014, the Arizona Department of Transportation (ADOT) was contacted

by a stakeholder organization and told that the comments they submitted on the Draft Environmental Impact Statement were not included in the FEIS. The ADOT examined this concern and found that the comments, submitted through email, had been received, but were never brought to the attention of the project team. The ADOT conducted a thorough search of the entire email system and found that 10 email comments had been inadvertently omitted from the FEIS. The omitted comments consist of the email from the stakeholder organization and 9 emails from other interested parties.

Based on this, FHWA, in conjunction with ADOT, has published this omission notice in the **Federal Register** and will prepare an Errata to the FEIS including responses to the 10 omitted comments, will publish a notice of availability for the Errata to the FEIS in the **Federal Register**, and will provide a 30-day review period for the Errata to the FEIS.

All interested parties who received project communications, including notice of the FEIS availability, will receive the notice of omission and notice of availability of the Errata to the FEIS. The Errata to the FEIS will also be available on the project Web site with the FEIS at www.azdot.gov/southmountainfreeway.

Issued on: October 31, 2014.

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2014-0388]

Agency Information Collection Activities; New Information Collection Request: Entry Level Driver Training Survey for Commercial Drivers' Licenses

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FMCSA announces its plan to submit the Information Collection Request (ICR) described below to the Office of Management and Budget (OMB) for review and approval. The purpose of this ICR is to examine, by a one-time collection of survey data, the

relationship of commercial driver license (CDL) entry level driver training (ELDT), as influenced by any subsequent employer training that may have been received, to safety performance of the drivers. The goal of this research is to contribute to other related research being done evaluating the relationship of CDL ELDT to subsequent safety performance of the drivers.

The results of this study, along with others, will provide FMCSA with information to support its consideration of the congressionally mandated requirement to establish enhanced minimum training requirements for CDL entry-level drivers from those currently required at 49 CFR 380.503. There is no national database that contains or collects data on the training received by drivers to enable them to qualify for a CDL.

Recently licensed freight CDL drivers will be surveyed. (This will contain both drivers without hazardous material endorsements and drivers with hazardous materials endorsements.) Motorcoach and bus drivers recently observed to have begun driving such vehicles in the most recent three years, as indicated by data in MCMIS, will be surveyed. The goal is to obtain a better understanding of the amount and type of total training they received, and its composition between that received before obtaining the CDL, and that received after obtaining the CDL. Type of training is divided into hours-based versus performance-based. Data on the amount and type of training received will be collected using a one-time survey effort. The data will be analyzed to describe the details of the driver training reported by the survey participants.

Results of the training survey data will be analyzed in relation to the safety performance data of the responding drivers available from two databases: the State-operated Commercial Driver's License Information System (CDLIS) and the Federally-operated Motor Carrier Management Information System (MCMIS).

DATES: We must receive your comments on or before January 6, 2015.
