Background

Information will be collected from AmeriCorps alumni through an online survey that will be administered by a contractor on behalf of CNCS. The purpose of the survey is to support CNCS in documenting the long-term civic participation and career pathways of AmeriCorps alumni and to help the agency determine whether or not national service members continue to be civically engaged or choose service-oriented careers. In addition, the agency is interested in exploring whether or not AmeriCorps members are as, or more, likely than those who participate in other types of service to maintain a sense of civic duty and pursue service-oriented careers. This survey is also an opportunity to determine the value of data collected from alumni who are at different life stages following their service year for informing policy and program decisions.

Current Action

Policy Justification

Iraq—M1A1 Abrams Tank Ammunition

The Government of Iraq has requested a possible sale of 10,000 M831 120mm High-explosive anti-tank (HEAT) munitions, 10,000 M865 120mm Kinetic Energy Warheads (KEW), 10,000 M865 120mm KEW–A1, and 16,000 M830 120mm HEAT–MP–T tank ammunition. Also included are U.S. Government and contractor technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$600 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. This proposed sale directly supports the Iraqi government and serves the interests of the Iraqi people and the United States.

The proposed sale of the ammunition and support will advance Iraq’s efforts to develop an integrated ground defense capability to support a strong national defense. This will enable the Iraqi Government to sustain its efforts to establish and maintain stability.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be General Dynamics-Ordnance Tactical Systems in St Petersburg, Florida. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of U.S. Government and contractor representatives to Iraq.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
