

to the committee, in response to the stated agenda of the open meeting or in regard to the committee's mission in general. Written comments or statements should be submitted to Mrs. Ghostlaw, the committee Designated Federal Officer, via electronic mail, the preferred mode of submission, at the address listed in the **FOR FURTHER INFORMATION CONTACT** section. Each page of the comment or statement must include the author's name, title or affiliation, address, and daytime phone number. Written comments or statements being submitted in response to the agenda set forth in this notice must be received by the Designated Federal Official at least seven business days prior to the meeting to be considered by the committee. The Designated Federal Official will review all timely submitted written comments or statements with the committee Chairperson, and ensure the comments are provided to all members of the committee before the meeting. Written comments or statements received after this date may not be provided to the committee until its next meeting. Pursuant to 41 CFR 102-3.140d, the committee is not obligated to allow a member of the public to speak or otherwise address the committee during the meeting. Members of the public will be permitted to make verbal comments during the committee meeting only at the time and in the manner described below. If a member of the public is interested in making a verbal comment at the open meeting, that individual must submit a request, with a brief statement of the subject matter, to be addressed by the comment, at least three (3) business days in advance to the committee's Designated Federal Official, via electronic mail, the preferred mode of submission, at the address listed in the **FOR FURTHER INFORMATION CONTACT** section. The Designated Federal Official will log each request, in the order received, and in consultation with the committee Chairperson, determine whether the subject matter of each comment is relevant to the committee's mission and/or the topics to be addressed in this public meeting. A 15-minute period near the end of the meeting will be available for verbal public comments. Members of the public who have requested to make a verbal comment and whose comments have been deemed relevant under the process described above will be allotted no more than three (3) minutes during this period, and will be invited to speak in the order in which their requests

were received by the Designated Federal Official.

Brenda S. Bowen,

Army Federal Register Liaison Officer.

Notice of Availability—Final Environmental Impact Statement for Revised Water Control Manuals for the Alabama-Coosa-Tallapoosa River Basin

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of availability.

SUMMARY: Notice is hereby given that the U.S. Army Corps of Engineers, Mobile District (USACE), has released a Final Environmental Impact Statement (FEIS) for the update of the Alabama-Coosa-Tallapoosa River Basin (ACT) Water Control Master Manual (Master Manual). USACE will accept comments during a public comment period that began with the Notice of Availability

published by the Environmental Protection Agency on November 7, 2014 and will end 30 days after that date.

DATES: Comments on the FEIS are due by December 8, 2014 and should be submitted as indicated in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: Mr. Lewis Sumner at telephone (251) 694-3857.

SUPPLEMENTARY INFORMATION: The Master Manual includes appendices prepared for individual projects in the ACT Basin and is the guide used by USACE to operate a system of five federal reservoir projects in the basin—Allatoona Dam and Lake, Carters Dam and Lake and Carters Reregulation Dam, Robert F. Henry Lock and Dam and R.E. “Bob” Woodruff Lake, Millers Ferry Lock and Dam and William “Bill” Dannelly Lake, and Claiborne Lock and Dam and Lake. Alabama Power Company (APC) regulates four non-federal projects—Weiss Dam and Lake, Logan Martin Dam and Lake, Neely Henry Dam and Lake, and R.L. Harris Dam and Lake—in compliance with the projects' Federal Energy Regulatory Commission (FERC) licenses and in accordance with USACE water control plans for flood risk management regulation and navigation support. The updated ACT Master Manual includes appendices prepared for two of the four APC projects for which USACE has authority for flood risk management and navigation support—Neely Henry and R.L. Harris. Water Control Manuals for the remaining two APC projects—Weiss and Logan Martin—will be addressed later.

USACE has updated the water control plans and manuals for the ACT Basin in order to improve operations for authorized purposes to reflect changed conditions since the manuals were last developed. The purpose and need for the updated Master Manual is to determine how operations in the federal projects in the ACT Basin should be adjusted to meet their authorized purposes, in light of current conditions and applicable law and to implement those operations through updated water control plans and manuals. The updated plans and manuals comply with existing USACE regulations and reflect operations under existing congressional authorizations, taking into account changes in basin hydrology and demands from years of growth and development, new/rehabilitated structural features, legal developments, and environmental issues.

USACE regulations also provide specific policy and guidance for inclusion of drought contingency plans
