

organizations may directly benefit from the findings of this study.

Blood donors are tested for transfusion-transmissible infections including HIV when they present to donate, and test result information as well as demographic data will be routinely collected in a database at the five blood centers participating in REDS-III studies (located in the cities of Chongqing, Liuzhou, Luoyang, Mianyang, and Urumqi). These data will allow for calculation of HIV incidence, prevalence, and residual risk. Additionally, a case-control study will be conducted over a 2 and 1/2 year period to evaluate the risk factors associated with HIV infection among

blood donors. Cases will be defined as potential donors who deny risks on the donor screening questionnaire but are found to be positive on HIV testing (their donation is discarded), HIV-positive donors who gave blood at one of the five blood centers as stated above (primary sites) or at blood centers located in the Guangxi Autonomous Region (peripheral sites, recruited through the Guangxi CDC for this study only but not other REDS-III studies) will be eligible to participate and complete a Risk Factor Questionnaire that will assess general demographic and risk factor information pertinent to HIV infection. Controls will be negative

for HIV on confirmatory testing. Assuming 50% response rate, it is anticipated that 390 HIV-positive donors and 960 controls will participate in the case control study. The results of this study will contribute to global HIV surveillance and prevention, provide a broader global understanding of HIV epidemiology, and support public health efforts to most effectively manage and potentially prevent HIV transmission both worldwide and in the US.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated burden hours are 450.

ESTIMATED ANNUALIZED BURDEN HOURS

Form name	Type of respondents	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total annual burden hours
HIV Risk factor Q	Blood donors—Case Primary Sites	210	1	20/60	70
	Blood donors—Case peripheral sites.	180	1	20/60	60
	Blood donors—Control primary sites	540	1	20/60	180
	Blood donors—Control peripheral sites.	420	1	20/60	140

The National Institute of Mental Health (NIMH) Draft Strategic Plan; Request for Comments

SUMMARY: NIMH is revising its 2008 Strategic Plan to guide the Institute's research efforts and priorities over the next five years (2015-2020). The purpose of this Notice is to seek input from the public about the draft NIMH 2015 Strategic Plan. The draft plan will be publicly available through the NIMH Draft Strategic Plan Web page (<http://www.nimh.nih.gov/about/strategic-planning-reports/review-the-draft-2015-nimh-strategic-plan.shtml>) for a 30-day period beginning on the publication date of this Notice. The public is invited to provide comments via the email address or postal address provided in this Notice and on the NIMH Draft Strategic Plan Web page.

DATES: To ensure consideration, your responses must be received within a 30-day period that begins on the publication date of this Notice.

ADDRESSES: Responses to this Notice should be submitted electronically using email to nimhstratplan@mail.nih.gov. Alternatively, written responses can be submitted by mail to the Science Writing, Press, and Dissemination Branch, 6001 Executive Boulevard, Room 6200, MSC 9663, Bethesda, MD 20892-9663.

FOR FURTHER INFORMATION CONTACT: Please contact our NIMH Information Specialists using the following contact information: telephone: 1-866-615-6464 (toll-free), 1-301-443-8431 (TTY), 1-866-415-8051 (TTY toll-free). Fax: 1-301-443-4279, Email: nimhinfo@nih.gov

SUPPLEMENTARY INFORMATION:

Background

The National Institute of Mental Health (NIMH) is the lead federal agency for research on mental illnesses. The mission of the NIMH is to transform the understanding and treatment of mental illnesses through basic and clinical research, paving the way for prevention, recovery, and cure. To fulfill its mission, the NIMH supports and conducts research on mental illnesses and the underlying basic

science of brain and behavior; supports the training of scientists to carry out basic and clinical mental health research; and, communicates with scientists, patients, providers, and the general public about the science of mental illnesses.

In 2008, the NIMH published a Strategic Plan to accelerate progress in basic, translational, and clinical science. The need to update the plan became clear with the increasing number of remarkable scientific advancements and the changing landscape of mental health care over the past six years. With the goals of helping individuals living with mental illnesses and promoting both prevention and cure, NIMH has revised its original four high-level Strategic Objectives as follows: (1) Define the biological basis of complex behaviors; (2) chart mental illness trajectories to determine when, where, and how to intervene; (3) develop better preventive and therapeutic interventions; and, (4) strengthen the public health impact of NIMH-supported research. These four Strategic Objectives form a broad roadmap for the Institute's priorities over the next five years, which begins with the fundamental science of the brain and behavior, and ends with public health impact. Full implementation of these Strategies Objectives, will, we hope, transform the

diagnosis, treatment, and prevention of these devastating illnesses.

Request for Comments

This notice invites public comment and input on the development of the NIMH 2015 Strategic Plan. When developing your comments, we ask that you consider the draft plan in the context of the current scientific landscape, as well as within the context of broader federal, for-profit, and not-for-profit stakeholder perspectives. We are particularly interested in receiving your ideas for scientific advancements, new technical capabilities or tools, or major challenge topics that promise substantial change to mental health research if pursued.

General Information

Responses to this Notice are optional and voluntary. Any personal identifiers will be removed when responses are compiled. Proprietary, classified, confidential, or sensitive information should not be included in your response. This Notice is for planning purposes only and is not a solicitation for applications or an obligation on the part of the United States (U.S.) government to provide support for any ideas identified in response to it. Please note that the U.S. government will not pay for the preparation of any comment submitted or for its use of that comment.

Privacy Act Notification Statement: We are requesting your comments for the 2015–2020 National Institute of Mental Health (NIMH) Strategic Plan. The information you provide may be disclosed to NIMH staff serving to develop the strategic plan and to contractors working on NIMH's behalf. Submission of this information is voluntary.
