Total Annual Burden: 11,280 hours.

Total Annual Cost: \$793,750.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality:

An assurance of confidentiality is not offered because this information collection does not require the collection of personally identifiable information from individuals. If the FCC requests that respondents submit information which respondents believe is confidential, respondents may request confidential treatment of such information pursuant to Section 0.459 of the FCC's rules, 47 CFR 0.459.

Needs and Uses: The rules adopted in the *Rural Call Completion Report and Order* ("Order"), WC Docket No. 13-39, FCC 13-135, require covered providers to record, retain and report call completion data. Covered providers are providers of long-distance voice service that make the initial long-distance call path choice for more than 100,000 domestic retail subscriber lines. These providers generally must collect call completion data, retain such data for six months, and file quarterly reports with the Commission. The collection of this data will give the Commission the information it needs to investigate rural call completion problems. In addition to the recordkeeping, retention, and reporting obligations described above, the *Order* also requires certain providers to file a one-time letter in the docket explaining that they do not make the initial long-distance call path choice and identifying the long-distance provider or providers to which they hand off their end-user customers' calls. Finally, the *Order* encourages rural incumbent local exchange carriers to report quarterly on the number of incoming long-distance call attempts received, the number answered on its network, and the call answer rate calculation for each of the previous three months. The Commission subsequently made minor modifications to this information collection in the *Rural Call Completion Reconsideration*

Order ("Reconsideration Order"), WC Docket No. 13-39, FCC 14-175. In the *Reconsideration Order*, the Commission granted USTelecom/ITTA's request that the reporting requirements exclude on-net intraLATA toll calls that are not handed off to unrelated carriers and are delivered directly to the terminating local exchange carrier or to the tandem that it subtends. The Commission found that this traffic comprises a small portion of on-net traffic (traffic that is not handed off to unrelated carriers) in general, that other on-net traffic will provide an adequate benchmark for off-net performance, and that the cost of applying the rules to this particular subset of traffic outweigh the benefits.
