

II. Discussion

As discussed in Section 9.4 of the final Supplement 51 to the GEIS, the NRC staff determined that the adverse environmental impacts of license renewal for Callaway are not so great that preserving the option of license renewal for energy-planning decisionmakers would be unreasonable. This recommendation is based on: (1) The analysis and findings in the GEIS; (2) information provided in the environmental report and other documents submitted by Union Electric Company; (3) consultation with Federal, state, local, and Tribal agencies; (4) the NRC staff's independent environmental review; and (5) consideration of public comments received during the scoping process and on the draft Supplemental Environmental Impact Statement.

SUPPLEMENTARY INFORMATION

Background

The NRC issues LR-ISGs to communicate insights and lessons learned and to address emergent issues not covered in license renewal guidance documents, such as the GALL Report and SRP-LR. In this way, the NRC staff and stakeholders may use the guidance in an LR-ISG document before it is incorporated into a formal license renewal guidance document revision. The NRC staff issues LR-ISGs in accordance with the LR-ISG Process, Revision 2 (ADAMS Accession No. ML100920158), for which a notice of

availability was published in the **Federal Register** on June 22, 2010 (75 FR 35510).

The NRC staff has developed LR-ISG-2013-01 to address loss of coating or lining integrity for internal coatings applied to the internal surfaces of piping, piping components, heat exchangers, and tanks within the scope of license renewal. On January 10, 2014 (79 FR 1904), the NRC requested public comments on draft LR-ISG-2013-01 (ADAMS Accession No. ML13262A442).

These changes address new recommendations related to managing loss of coating integrity for coatings applied to the internal surfaces of piping, piping components, heat exchangers, and tanks within the scope of part 54 of Title 10 of the *Code of Federal Regulations* (10 CFR), "Requirements for Renewal of Operating Licenses for Nuclear Power Plants." The NRC published Revision 2 of the SRP-LR and the GALL Report in December 2010, and they are available in ADAMS under Accession Nos. ML103490036 and ML103490041, respectively.

The NRC received comments from the Nuclear Energy Institute by letter dated February 24, 2014 (ADAMS Accession No. ML14058A181), and Daniel L. Cox, PE, by letter dated February 7, 2014 (ADAMS Accession No. ML14055A250). No other comments were submitted. The NRC considered these comments in developing the final LR-ISG. Detailed responses to the comments can be found in Appendix E of the final LR-ISG.

The final LR-ISG-2013-01 is approved for NRC staff and stakeholder use and will be incorporated into NRC's next formal license renewal guidance document revision.

Backfitting and Issue Finality

Issuance of this final LR-ISG does not constitute backfitting as defined in 10 CFR 50.109 (the Backfit Rule) and is not otherwise inconsistent with the issue finality provisions in 10 CFR Part 52, "Licenses, Certifications, and Approvals for Nuclear Power Plants." As discussed in the "Backfitting and Issue Finality" section of the final LR-ISG-2013-01, the LR-ISG is directed to holders of operating licenses or combined licenses who are currently in the license renewal process. The LR-ISG is not directed to holders of operating licenses or combined licenses until they apply for license renewal. The LR-ISG is also not directed to licensees who already hold renewed operating or combined licenses.

Dated at Rockville, Maryland, this 6th day of November, 2014.

[Release No. 34-73562; File No. SR-
NASDAQ-2014-020]

Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Notice of Filing of Amendment No. 1 and Order Granting Accelerated Approval of a Proposed Rule Change, as Modified by Amendment No. 1 Thereto, Relating to Listing and Trading of Exchange- Traded Managed Fund Shares

November 7, 2014.

I. Introduction

On February 26, 2014, The NASDAQ Stock Market LLC (“Nasdaq” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”), pursuant to Section

19(b)(1) of the Securities Exchange Act of 1934 (“Act” or “Exchange Act”)¹ and Rule 19b-4 thereunder,² a proposed rule change to adopt Nasdaq Rule 5745, which would govern the listing and trading of Exchange-Traded Managed Fund Shares (“ETMF Shares” or “ETMFs”), and to amend related references under Nasdaq Rules 4120, 5615, IM-5615-4, and 5940. The proposed rule change was published for comment in the **Federal Register** on March 12, 2014.³ The Commission initially received four comment letters on the proposal.⁴ On April 23, 2014, pursuant to Section 19(b)(2) of the Act,⁵ the Commission designated a longer period within which to either approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether to disapprove the proposed rule change.⁶ On June 9, 2014, the Commission instituted proceedings to determine whether to approve or disapprove the proposed rule change.⁷ In response to the Order Instituting Proceedings, the Commission received one comment letter on the proposal.⁸ On September 4,

The Commission determined that it was appropriate to designate a longer period within which to take action on the proposed rule change so that it had sufficient time to consider the proposed rule change. Accordingly, the Commission designated June 10, 2014 as the date by which it should approve, disapprove, or institute proceedings to determine whether to disapprove the proposed rule change.

⁷ See Securities Exchange Act Release No. 72350 (Jun. 9, 2014), 79 FR 33959 (Jun. 13, 2014) (SR-NASDAQ-2014-020) (“Order Instituting Proceedings”). In the Order Instituting Proceedings, the Commission noted, among other things, that questions remained as to whether the Exchange’s proposal is consistent with the requirements of Section 6(b)(5) of the Act, specifically whether it is designed to prevent fraudulent and manipulative acts and practices, promotes just and equitable principles of trade, and protects investors and the public interest.
