SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the correction of an inventory of human remains and associated

funerary objects under the control of the U.S. Department of the Interior, Bureau of Indian Affairs, Washington, DC, and in the physical custody of the Arizona State Museum, University of Arizona, Tucson, AZ (ASM). The human remains and associated funerary objects were removed from a location within the boundaries of the Fort Apache Indian Reservation, Navajo County, AZ.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and associated funerary objects. This notice corrects the minimum number of individuals and number of associated funerary objects published in a Notice of Inventory Completion in the *Federal Register* (77 FR 11578–11580, February 27, 2012). Re-inventory of the human remains resulted in a reduction in the minimum number of individuals represented because many fragmentary elements could be reassociated with individuals from the more intact burials. The number of associated funerary objects increased due a search through uncatalogued object collections.
