Procedural Matters: Any person may comment on this application by filing such comment at the address provided above. Any person seeking to become a party to this proceeding must file a motion to intervene at the address provided above in accordance with Rule 214 of FERC's Rules of Practice and Procedure (18 CFR 385.214). Two copies of each comment or motion to intervene should be filed with DOE on or before the date listed above.

Additional copies of such motions to intervene also should be filed directly with: David Moeller, Senior Attorney, Minnesota Power, 30 West Superior St., Duluth, MN 55802, dmoeller@allete.com AND Mike Donahue, Project Manager, Minnesota Power, 30 West Superior St., Duluth, MN 55802, mdonahue@allete.com AND Jim Atkinson, Environmental Manager, Minnesota Power, 30 West Superior St., Duluth, MN 55802, jbatkinson@allete.com.

Before a Presidential permit may be issued, DOE must determine whether issuance of the permit would be consistent with the public interest. In making that determination, DOE considers the potential environmental impacts of the proposed project pursuant to the National Environmental Policy Act (NEPA), determines the project's impact on electric reliability by ascertaining whether the proposed project would adversely affect the operation of the U.S. electric power supply system under normal and contingency conditions, and considers any other factors that may also be relevant to the public interest. DOE must also obtain the favorable recommendations of the Secretary of State and the Secretary of Defense before issuing a Presidential permit.

Copies of the amended application will be made available, upon request, for public inspection by accessing the program Web site at <http://energy.gov/oe/services/electricity-policy-coordination-and-implementation/international-electricity-regulation-2> or by emailing Angela Troy at angela.troy@hq.doe.gov.
