NUCLEAR REGULATORY COMMISSION

10 CFR Part 20

[NRC–2009–0279]

RIN 3150–AJ29

Radiation Protection

AGENCY: Nuclear Regulatory Commission.

ACTION: Advance notice of proposed rulemaking; extension of comment period.

SUMMARY: On July 25, 2014, the U.S. Nuclear Regulatory Commission (NRC) published for comment an advance notice of proposed rulemaking (ANPR) to obtain input from stakeholders on the development of a draft regulatory basis. The draft regulatory basis would identify potential changes to the NRC's current radiation protection regulations. The potential changes, if implemented, would achieve a closer alignment between the NRC's radiation protection regulations and the recommendations of the International Commission on Radiological Protection (ICRP) contained in ICRP Publication 103 (2007). The public comment period was originally scheduled to close on November 24, 2014. The NRC has decided to extend the public comment period on the ANPR to provide additional time for members of the public and other stakeholders to develop and submit their comments.

DATES: The comment period in the notice published on July 25, 2014 (79 FR 43284) is extended. Comments should be filed no later than March 24, 2015. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

II. Background

On July 25, 2014 (79 FR 43284), the NRC published for comment an ANPR to obtain input from stakeholders on the development of a draft regulatory basis. The draft regulatory basis would identify potential changes to the NRC's current radiation protection regulations.

The potential changes, if implemented, would achieve a closer alignment between the NRC's radiation protection regulations and the recommendations in ICRP Publication 103 (2007).

The ANPR identifies specific questions and issues with respect to a possible revision of NRC's radiation protection requirements. Stakeholder comments, including responses to the specific questions, will be considered by the NRC staff when it develops the draft regulatory basis. The public comment period was originally scheduled to close on November 24, 2014. The NRC has decided to extend the public comment period to allow more time for members of the public and other stakeholders to develop and submit their comments. The deadline for submitting comments is extended to March 24, 2015.

Dated at Rockville, Maryland, this 14th day of November 2014.

For the Nuclear Regulatory Commission.

Laura A. Dudes,

Director Division of Material Safety, State, Tribal and Rulemaking Programs, Office of Nuclear Material Safety and Safeguards.
