#### **SUPPLEMENTARY INFORMATION:**

##### **I. Abstract**

The Quarterly Survey of Payment Card and Bank Card Transactions Related to International Travel (BE-150) is a survey that collects data on the credit, debit, charge, automated teller machine (ATM), and point of sale transactions of U.S. persons traveling abroad and foreign persons traveling in the United States. The information collected on this survey will be used to formulate U.S. international economic policy and analyze the impact of that policy, and the policies of foreign countries, on international trade in services. The data are also used in estimating the travel component of the U.S. international transactions accounts (ITAs) and national income and product accounts (NIPAs).

The Bureau of Economic Analysis (BEA) is proposing no additions, modifications, or deletions to the current BE-150 survey. The effort to keep current reporting requirements unchanged is intended to minimize respondent burden while considering the needs of data users. Existing language in the instructions and definitions will be reviewed and adjusted as necessary to clarify survey requirements.

##### **II. Method of Collection**

Form BE-150 is a quarterly report that must be filed within 45 days after the end of each quarter and is mandatory for each U.S. company that operates networks for clearing and settling credit card transactions made by U.S. cardholders in foreign countries and by foreign cardholders in the United States and from PIN-based debit network companies.

BEA offers its electronic filing option, the eFile system, for use in reporting on Form BE-150. For more information about eFile, go to [www.bea.gov/eFile](http://www.bea.gov/eFile).
