Competitive Processes, Terms, and Conditions for Leasing Public Lands for Solar and Wind Energy Development and Technical Changes and Corrections

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of proposed rulemaking; extension of comment period.

SUMMARY: On September 30, 2014, the Bureau of Land Management (BLM) published in the **Federal Register** with a 60-day comment period a proposed rule, to facilitate responsible solar and wind energy development and to receive fair market value for such development. (79 FR 59021) The proposed rule would promote the use of preferred areas for solar and wind energy development and establish competitive processes, terms, and conditions (including rental and bonding requirements) for solar and wind energy development rights-of-way both inside and outside these preferred areas. The proposed rule would also make technical changes, corrections, and clarifications to existing rights-of-way regulations. Some of these changes would affect all rights-of-way and some provisions would affect particular types of actions, such as transmission lines with a capacity of 100 Kilovolts (kV) or more, or pipelines 10 inches or more in diameter.

The BLM received requests to extend the comment period of this proposed rule. In response to these requests, the BLM is extending the comment period for 15 days beyond the end of the initial comment period. As a result of this extension, the comment period will now close on December 16, 2014.

DATES: Send your comments on this proposed rule to the BLM on or before December 16, 2014. The BLM need not consider, or include in the administrative record for the final rule, comments that the BLM receives after the close of the comment period or comments delivered to an address other than those listed below (see **ADDRESSES**).

SUPPLEMENTARY INFORMATION:

Public Comment Procedures

If you wish to comment, you may submit your comments by any one of the several methods listed in the **ADDRESSES** section.

Please make your comments as specific as possible by confining them to issues directly related to the content of the proposed rule, and explain the basis for your comments. The comments and recommendations that will be most useful and likely to influence agency decisions are:

1. Those supported by quantitative information or studies; and
2. Those that include citations to, and analyses of, the applicable laws and regulations.

The BLM is not obligated to consider or include in the Administrative Record for the rule comments received after the close of the comment period (see **DATES**) or comments delivered to an address other than those listed above (see **ADDRESSES**).

Comments, including names and street addresses of respondents, will be available for public review at the address listed under **ADDRESSES** during regular hours (7:45 a.m. to 4:15 p.m.), Monday through Friday, except holidays.

Before including your address, telephone number, email address, or other personal identifying information

in your comment, be advised that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask in your comment to withhold from public review your personal identifying information, we cannot guarantee that we will be able to do so.

Janice M. Schneider,
Assistant Secretary, Land and Minerals Management.

[GN Docket Nos. 14-166 and 12-268; FCC 14-145]

Spectrum Access for Wireless Microphone Operations

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document initiates a proceeding to address how to accommodate the long-term needs of wireless microphone users. Wireless microphones play an important role in enabling broadcasters and other video programming networks to serve consumers, including as they cover breaking news and broadcast live sports events. They enhance event productions in a variety of settings—including theaters and music venues, film studios, conventions, corporate events, houses of worship, and internet webcasts. They also help create high quality content that consumers demand and value. Recent actions by the Commission, and in particular the repurposing of broadcast television band spectrum for wireless services set forth in the *Incentive Auction R&O*, will significantly alter the regulatory environment in which wireless microphones operate, which necessitates our addressing how to accommodate wireless microphone users in the future.

DATES: Comments must be filed on or before January 5, 2015, and reply comments must be filed on or before January 26, 2015.
