

Customers may incur postage costs when submitting a patent or trademark assignment request to the USPTO by mail. The USPTO expects that some assignment requests will be submitted by fax but that approximately 4,921 (51%) of the 9,649 paper assignment requests per year will be submitted by mail. The USPTO estimates that the average first-class postage cost for a mailed Patent or Trademark Recordation Form Cover Sheet submission is 88 cents, resulting in a total postage cost of \$4,331 per year for this collection.

The total (non-hour) respondent cost burden for this collection in the form of filing fees and postage costs is estimated to be \$2,954,726 per year.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, e.g., the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: November 20, 2014.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Medal of Technology and Innovation is the highest honor for technological achievement bestowed by the President of the United States on America's leading innovators. Established by an Act of Congress in 1980, the Medal of Technology was first awarded in 1985. The Medal is awarded annually to individuals, teams (up to four individuals), companies or divisions of companies for their outstanding contributions to the Nation's economic, environmental and social well-being through the development and commercialization of technology products, processes and concepts, technological innovation, and development of the Nation's technological manpower.

The purpose of the National Medal of Technology and Innovation is to recognize those who have made lasting contributions to America's competitiveness, standard of living, and quality of life through technological innovation, and to recognize those who have made substantial contributions to strengthening the Nation's technological workforce. By highlighting the national importance of technological innovation, the Medal also seeks to inspire future generations of Americans to prepare for and pursue technical careers to keep

America at the forefront of global technology and economic leadership.

The National Medal of Technology and Innovation Nomination Evaluation Committee, a distinguished independent committee appointed by the Secretary of Commerce, reviews and evaluates the merit of all candidates nominated through an open, competitive solicitation process. The committee makes its recommendations for Medal candidates to the Secretary of Commerce who, in turn, makes recommendations to the President for final selection. The National Medal of Technology and Innovation Laureates are announced by the White House once the Medalists are notified of their selection.

The public uses the National Medal of Technology and Innovation Nomination Application to recognize through nomination an individual's, team's or company's extraordinary leadership and innovation in technological achievement and outstanding contributions to strengthening the nation's technological workforce. The application must be accompanied by six letters of recommendation or support from individuals who have first-hand knowledge of the cited achievement(s).

II. Method of collection

The nomination application and instructions can be downloaded from the USPTO Web site. Nomination files should be submitted by electronic mail to *NMTI@USPTO.gov*. Alternatively, letters of recommendation may be sent by electronic mail, fax, or overnight delivery.

III. Data

OMB Number: 0651-0060.

Form Number(s): None.

Type of Review: Extension of a currently approved collection.

Affected Public: Primarily business or other for-profit organizations; not-for-profit institutions; individuals or households.

Estimated Number of Respondents: 50 responses per year.

Estimated Time per Response: The USPTO estimates that it will take approximately 40 hours to gather the necessary information, prepare the nomination form, write the recommendations, and submit the request for the nomination to the USPTO.

Estimated Total Annual Respondent Burden Hours: 2,000 hours.

Estimated Total Annual Respondent Cost Burden: \$75,000. The USPTO expects that private sector individuals of various occupations and professions will complete this information. The

hourly rate for these individuals is estimated to be \$37.50.

Item	Estimated time for response (hours)	Estimated annual responses	Estimated annual burden hours
National Medal of Technology and Innovation Nomination Form	40	50	2,000
Totals	50	2,000

Estimated Total Annual (Non-Hour) Respondent Cost Burden: \$1.47.

Although it is possible for the public to submit the nominations through regular or express mail, recently very few submissions have been received in this manner. The majority of recent submissions have been through electronic mail. Therefore, we estimate one mailing per year within the next 3 years at a rate of 49 cents for a total postage cost of \$1.47.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, e.g., the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized or included in the request for OMB approval of this information collection; they will also become a matter of public record.

Dated: November 20, 2014.
