

States at less than fair value (“LTFV”), and by reason of imports from China and Taiwan that have been found by Commerce to be subsidized by the governments of China and Taiwan.² The Commission also finds that imports subject to Commerce’s affirmative critical circumstances determinations are not likely to undermine seriously the remedial effect of those countervailing and antidumping duty orders to be issued on non-oriented electrical steel from China, Germany, Japan, and Sweden.

Background

The Commission instituted these investigations effective September 30, 2013, following receipt of a petition filed with the Commission and Commerce by AK Steel Corp., West Chester, Ohio. The final phase of these investigations was scheduled by the Commission following notification of preliminary determinations by Commerce that imports of non-oriented electrical steel from China and Taiwan were subsidized within the meaning of section 703(b) of the Act (19 U.S.C. 1671b(b)) and that imports of non-oriented electrical steel from China, Germany, Japan, Korea, Sweden, and Taiwan were sold at LTFV within the meaning of 733(b) of the Act (19 U.S.C. 1673b(b)).³ Notice of the scheduling of the final phase of the Commission’s investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on July 11, 2014 (79 FR 40143). The hearing was held in Washington, DC, on October 8, 2014, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission completed and filed its determinations in these investigations on November 25, 2014. The views of the Commission are contained in USITC Publication 4502 (November 2014), entitled *Non-Oriented Electrical Steel from China, Germany, Japan, Korea, Sweden, and Taiwan: Investigation Nos. 701-TA-506 and 508 and 731-TA-1238-1243 (Final)*.

² Chairman Meredith M. Broadbent dissented.

³ In its preliminary countervailing duty determination, Commerce found that imports of non-oriented electrical steel were not being and not likely to be subsidized by the government of Korea (79 FR 16295, March 25, 2014). Following a final negative countervailing duty determination by Commerce with respect to non-oriented electrical steel from Korea (79 FR 61605, October 14, 2014), the Commission terminated investigation No. 701-TA-507 (79 FR 64408, October 29, 2014).

By order of the Commission.

Issued: November 25, 2014.

Lisa R. Barton,

Secretary to the Commission.

AGENCY: Bureau of International Labor Affairs (ILAB), Department of Labor.

ACTION: Request for comments.

SUMMARY: This initial determination proposes to revise the list (EO List) required by Executive Order No. 13126 (“Prohibition of Acquisition of Products Produced by Forced or Indentured Child Labor”) in accordance with the Department of Labor’s “Procedural Guidelines for the Maintenance of the List of Products Requiring Federal Contractor Certification as to Forced or Indentured Child Labor” (the Procedural Guidelines). The EO List identifies products, by their country of origin, that the Department of Labor (DOL), in consultation and cooperation with the Departments of State and Homeland Security (the three Departments), has a reasonable basis to believe might have been mined, produced, or manufactured by forced or indentured child labor. SUPPLEMENTARY INFORMATION:

I. Information Sought

DOL is requesting public comment on the revisions to the list proposed below, as well as any other issue related to the fair and effective implementation of Executive Order (EO) 13126. This notice is a general solicitation of comments from the public. All submitted comments will be made a part of the public record and will be available for inspection on <http://www.regulations.gov>.

In conducting research for this initial determination, DOL considered a wide variety of materials based on its own research and originating from other U.S. Government agencies, foreign governments, international organizations, non-governmental organizations, U.S. Government-funded technical assistance and field research projects, academic and other independent research, media, and other sources. The Department of State and U.S. embassies and consulates abroad also provide important information by gathering data from contacts, conducting site visits and reviewing local media sources. In developing the proposed revision to the EO List, DOL’s review focused on information concerning the use of forced or indentured child labor that was available from the above sources.

As outlined in the Procedural Guidelines, several factors were weighed in determining whether or not a product should be placed on the revised EO List: The nature of the information describing the use of forced or indentured child labor; the source of the information; the date of the information; the extent of corroboration of the information by other sources; whether the information involved more
