

Assessment (Final Document, July 2010).

Based in large part on the input received during this workshop, EPA will develop a draft Integrated Review Plan (IRP) for the PM NAAQS. This draft IRP will outline the schedule, process, and approaches for evaluating the relevant scientific information and addressing the key policy-relevant issues to be considered in this review. CASAC will be asked to review the draft IRP in the mid-2015 and the public will also have the opportunity to comment on the draft plan. The final IRP, prepared in consideration of CASAC and public comments, will outline the process and schedule for conducting the review and the planned scope of the assessment documents (e.g., an ISA, a risk/exposure assessment, and a policy assessment) as well as the key policy-relevant issues/questions that will guide the review.

SUMMARY: Notice is hereby given of the final approval of proposed information collections by the Board of Governors of the Federal Reserve System (Board) under OMB delegated authority, as per 5 CFR 1320.16 (OMB Regulations on Controlling Paperwork Burdens on the Public). Board-approved collections of information are incorporated into the official OMB inventory of currently approved collections of information. Copies of the Paperwork Reduction Act Submission, supporting statements and approved collection of information instrument(s) are placed into OMB's public docket files. The Federal Reserve may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Executive Office Building, Room 10235, 725 17th Street NW., Washington, DC 20503.

Final approval under OMB delegated authority the extension for three years of the following information collection, with revision:

Report title: Government-administered, General-use Prepaid Card Surveys.¹

Agency form number: FR 3063a and FR 3063b.

OMB control number: 7100-0343.

Frequency: Annual.

Reporters: Issuers of government-administered, general-use prepaid cards (FR 3063a) and governments that administer general-use prepaid card programs (FR 3063b).

Estimated annual reporting hours: FR 3063a: 375 hours; FR 3063b: 2,700 hours.

Estimated average hours per response: FR 3063a: 25 hours; FR 3063b: 15 hours.

Number of respondents: FR 3063a: 15; FR 3063b: 180.

General description of report: This information collection is authorized by subsection 920(a) of the Electronic Fund Transfer Act (EFTA), which was amended by section 1075(a) of the Dodd-Frank Act. 15 U.S.C. 1693o-2. EFTA Section 920(a) requires the Board to submit an annual report to the Congress on the prevalence of use of general-use prepaid cards in Federal, state, and local government-administered payment programs and on the interchange transaction fees and cardholder fees charged with respect to the use of such prepaid cards. 15 U.S.C. 1693o-2(a)(7)(D). EFTA Section 920(a) also provides the Board with authority to require issuers to provide information to enable the Board to carry out the provisions of the subsection. 15 U.S.C. 1693o-2(a)(3)(B). The obligation of issuers to respond to the issuer survey (FR 3063a) is mandatory. However, the obligation of state and local governments to respond to the government survey (FR 3063b) is voluntary. A limited amount of information collected on the FR 3063a issuer survey is publicly available, and thus, is not accorded confidential treatment. However, most of the information collected on the FR 3063a issuer survey is not publicly available and may be kept confidential as explained herein. Data collected by the issuer survey may be kept confidential under exemption (b)(4) of the Freedom of Information Act (FOIA), which

¹ The issuer and government surveys, supporting statement, and other documentation are available on the Board's public Web site at: <http://www.federalreserve.gov/apps/reportforms/review.aspx>.

exempts from disclosure "trade secrets and commercial or financial information obtained from a person and privileged or confidential." 5 U.S.C. 552(b)(4). Such data may be kept confidential under exemption 4 if the release of data would cause substantial harm to the competitive position of the issuer. For example, certain issuer survey responses would likely contain information related to an organization's revenue structure and other proprietary and commercial information and the release of such information would cause substantial harm to the competitive position of the issuer and could therefore be kept confidential under exemption 4. The information collected on the government survey (FR 3063b) is not accorded confidential treatment.

Abstract: Section 1075(a) of the Dodd-Frank Act provides that the Board shall provide annually a report to the Congress regarding the prevalence of use of general-use prepaid cards in federal, state, and local government-administered payment programs, and the interchange and cardholder fees charged with respect to the use of such prepaid cards.² Section 1075(a) of the Dodd-Frank Act also provides the Board with authority to require card issuers to respond to information requests as may be necessary to carry out the provisions of the section.

Current Actions: On September 19, 2014, the Federal Reserve published a notice in the **Federal Register** (79 FR 56368) requesting public comment for 60 days on the extension, with revision, of the Government-Administered, General-Use Prepaid Card Surveys. The comment period for this notice expired on November 18, 2014. The Federal Reserve did not receive any comments. The revisions will be implemented as proposed.

As noted in the initial **Federal Register** notice (IFR) the Federal Reserve requested specific comment regarding the potential impact of eliminating the government survey (FR 3063b). The Federal Reserve noted in the IFR that the data collected under FR 3063b are used to calculate and report prevalence-of-use metrics, including the ratio of funds disbursed by prepaid cards to funds disbursed by all payment methods. Also, as noted in the IFR, should the Federal Reserve decide to eliminate FR 3063b, it would no longer be able to report this ratio; rather, the Federal Reserve would rely on data from the issuer survey (FR 3063a) to calculate and report alternative prevalence-of-use metrics, including the value of funds loaded onto government-administered
