SUPPLEMENTARY INFORMATION: A notice that EEOC would be submitting this request was published in the **Federal Register** on June 30, 2014 (79 FR 36802), allowing for a 60 day public comment period. One comment was received. This comment was in favor of the continued use of the EEO-1, and also suggested making a change to the reporting procedures that currently prevent parent companies from electronically submitting EEO-1 reports for different subsidiary companies operating at the same physical location within the same industry classification. EEOC has contacted the organization that made the comment and is in the process of setting up a meeting to determine how this suggestion can be implemented by the next reporting cycle.

¹The burden and cost estimates in this notice represent the most current figures through the 2013 EEO-1 filing period. such records, and to produce such reports as the Commission prescribes by regulation or order. Accordingly, the EEOC issued regulations prescribing the EEO-1 reporting requirement. Employers in the private sector with 100 or more employees and some federal contractors with 50 or more employees have been required to submit EEO-1 reports annually since 1966. The individual reports are confidential. EEO-1 data is used by EEOC to investigate charges of employment discrimination against employers in private industry and to provide information about the employment status of minorities and women. The data is shared with the Office of Federal Contract Compliance Programs (OFCCP), U.S. Department of Labor, and several other federal agencies. Pursuant to § 709(d) of Title VII of the Civil Rights Act of 1964, as amended, EEO-1 data is also shared with state and local Fair Employment Practices Agencies (FEPAs).

Burden Statement: The estimated number of respondents required to submit the annual EEO-1 survey is 70,070 private employers. The annual number of responses is approximately 307,103. The form is estimated to impose 1,044,150 burden hours annually or 3.4 hours per response. In order to help reduce survey burden, respondents are encouraged to report data electronically whenever possible.
